### **Main Actions**

- Offered ongoing feedback to reports from the Curriculum Review Committee
- Received FAS approval for change to minor requirements, which now calls for at least nine hours of credit to be earned in residence at the College
- Took action to clarify and ease enforcement of the College's existing policy regarding Incomplete grades. The clarified policy, which will appear in the undergraduate course catalog, reads: "An instructor may grant a one-semester extension of an incomplete in exceptional circumstances. After this extension, the "I" reverts to an "F" if sufficient work is not completed to warrant assignment of another letter grade by the instructor." This brings the catalog in line with the Faculty Manual, which specifies the one-semester extension policy.
- Took action to clarify and ease enforcement of the College's existing policy about grade changes. The clarification, which will appear in the catalog, reads: "No grades will be changed more than one year after initial issuance or after a student's degree is conferred, whichever comes first."
- Approved a proposal to change language in catalog to clarify that students may not take SAT 2 exams after beginning coursework at W&M.
- Advised Associate Provost for Academic Affairs on on-line course evaluations; EPC issued a statement indicating that from "the standpoint of educational policy, the committee has no objections provided that any department will be able to mandate that its evaluations will be completed in the classroom during the regularly scheduled class-meeting time."

- Approved new minor in Public Health
- Approved curriculum changes for St. Andrews joint degree program
