## Frequently Asked Questions- SPEAK Test

### **What is the SPEAK Test?**

The SPEAK Test is an oral proficiency test, designed to assess *generalized* speaking abilities of students whose first language is not English. SPEAK scores cannot and will not be used to predict a student's future academic, teaching, or professional success.

### **Who is required to take the SPEAK Test?**

Graduate students whose first language is not English, including those who have already taken the TOEFL exam, are required to take the SPEAK Test.

### **What is the difference between the TOEFL Test and the SPEAK Test?**

The TOEFL Test is a written test that focuses on grammar, reading comprehension, and listening comprehension. It is used as an entrance requirement for many colleges and universities in the U.S., including the College of William & Mary.

Unlike the TOEFL Test, the SPEAK Test is an oral test that focuses on a nonnative speaker's ability to communicate in English.

### **What is the purpose of the SPEAK Test?**

The Graduate Center offers courses to nonnative speakers of English to improve their written and oral communication skills. Scores from the SPEAK Test will enable the Graduate Center to make recommendations to your department/program concerning the oral communication courses that would most benefit you.

### **How long is the SPEAK Test?**

The SPEAK test takes approximately 30 minutes to complete. Students will be asked to respond to twelve questions, and their answers will be digitally recorded. The recording will then be scored independently by two different raters who have undergone special training.
