All A&S graduate students are required to complete the Haven training module no later than December 8, 2017. Failure to complete the mandatory Haven training will result in a hold being placed on your student account, which means that you will be unable to register for classes for Spring 2018 until the training has been completed. All A&S graduate students must be registered to remain in good academic standing. Further, A&S graduate students appointed as graduate assistants must be registered as full-time students to continue to receive any form of financial assistance.

Student Portfolios: Highlight your accomplishments on the OGSR website. The Graduate Studies website houses portfolios of current A&S students. We’d like to highlight your achievements and the high quality of your work! Please use this form to send us your major accomplishments, or email them to asgradportfolio@wm.edu. For examples or more information, visit the submissions page.

**ANNOUNCEMENTS**

- **NEW** The National Aeronautics and Space Administration (NASA) Headquarters has released a solicitation, titled **NASA Space Technology Research Fellowships (NSTRF)** - Fall 2018, Phase A is the application submission by the student. All Phase A applications must be submitted electronically through NSPIRES and are due by 6 PM ET on **November 2, 2017**. Detailed submission instructions for applicants are provided under "Other Documents" on the NSPIRES webpage associated with the NSTRF18 solicitation. Potential student applicants are urged to access the NSPIRES electronic proposal system well in advance of the proposal due date to register with NSPIRES, familiarize themselves with its structure, and to enter the requested information. This call for graduate student fellowship applications solicits applications from individuals pursuing or planning to pursue master’s (e.g., M.S.) or doctoral (e.g., Ph.D.) degrees in relevant space technology disciplines at accredited U.S. universities. Comments and questions may be addressed by e-mail to the Space Technology Research Grants Program Executive, Claudia Meyer. More

- **NEW** Research at National Energy Technology Laboratory (NETL). Participants are provided the opportunity to conduct hands-on energy research at NETL through educational programs administered by the Oak Ridge Institute for Science and Education (ORISE). NETL’s Core Research and Development areas focus on five energy related issues: Chemical Engineering; Decision Science and Analysis; Systems Engineering and Integration; Applied Materials Science and Engineering; Environmental Subsurface
Science. To engage these five critical issues, ORISE offers three highly competitive programs designed for all academic levels – the Professional Internship Program (PIP) (graduate students in good standing at a regionally accredited college/university, or a post-baccalaureate within one year of graduation), the Postgraduate Research Program (PGRP) (for graduates who received their master’s degree within the last three years, or doctorate within the last five years). Please visit to learn more about the program and the application process. To be considered for the NETL research program students need to apply online.
