

Music Theory Placement Test

- For students who have taken AP Music Theory, a score of 4 on the exam places into Music 201, while a 5 places into 202. Students should contact Professor Brian Hulse at bchuls@wm.edu in order to obtain an override.
- Other students with a background in music theory wishing to place into a higher level should also contact Professor Hulse, who will administer a placement exam.
- This exam can be taken at any point during the year, and those who place into higher levels of theory must then request an override from Prof. Hulse during the registration period for the semester they plan to take their first theory course.
