Creating an Instructional or Executive Posting

To begin login to the site at [https://jobs.wm.edu/hr](https://jobs.wm.edu/hr). On the Home Page, from the Shortcuts box, select Create New Instructional/Executive Posting.

This box will appear for you to choose select **Create from Position Description**

Choose the Role Title or Position Title of the position you want to use to create this new posting and hover over Actions to View the position description.
Creating an Instructional or Executive Posting
(continued)

Choose Create From
New Posting

The Position Title will default from the approved Position Description. The Department field may be a drop-down depending on the user’s permissions. If you have more than one department as part of your user assignments a drop-down box will allow you to choose from those departments. If you have one department assigned, that department will default to the field.
References

You have the option to decide if the posting will accept references. If you check the box next to “Accept References” an email generated from the system will be sent to the referee to upload their letter of recommendation. This is a settings page which is required along with the Recommendations Tab when accepting References directly through the secure portal.

If References are accepted a drop-down box appears providing the option to choose at what point during the candidate workflow the references are notified.

This is an option however; if you choose to accept references this field must be completed. If nothing is selected, an email will not be generated to the referee.
References
(continued)

You will also decide when Recommendations (References) have been provided, at what point to move the candidate in the workflow. Our recommendation is to leave this field “blank”. If you select a point in the workflow such as “interviewed” and the candidate has moved past that point, no references can be accepted. If you leave the field blank, letters of recommendation can be provided at any time.

You can also identify what type of recommendation will be allowed.

The above screen shot is our recommendation of how best to complete these fields if you are accepting references through the secure portal of the system.
Accepted Applications

The system will always default to accepting Online Applications and this should not be changed unless you choose not to accept applications or resumes. Special Offline applications instructions can be provided if necessary.

Depending on the type of position, choose the appropriate application form accepted for this posting.

![Accepted Application Forms](image)

Then select

Create New Posting  Cancel

If you fail to choose an application form, this error message will appear in the top left corner.

⚠️ at least one accepted application form must be selected
Posting Details Tab

The Posting Details contains information which will default or automatically be filled in from the approved position description but will be in a “read only” status. The Position Summary field can be edited to describe the position for posting.

To create a requisition, first complete the information on this screen, then click Next >>. Proceed through all sections completing all necessary information. To submit the Posting to human resources, you must go to the Posting Summary Page by clicking on the Next button until you reach the Posting summary Page or select Posting Summary Page from the menu and clicking Go. Once a summary page appears, you may enter a comment to the posting (if applicable) and select the Submit button.

Your name will auto populate but Multiple Hiring Officials can be added at the time of creation.

The Job Open Date, Review Begin Date and Job Close Date are to be completed.

Ranking Criteria Tab

Ranking Criteria is a feature used in combination with the Search Committee Tab. Ranking Criteria allow interviewers to provide subjective assessments of applicants on specific items at specific points in the workflow or recruitment process.

To access the list of ranking criteria click on “Add a Criterion”.

---

To create a ranking criteria:
Access the appropriate list of ranking factors.
From the Actions menu, select Create New. The Creating page opens.
Enter a name for the item. This is the label that is presented when a user selects this type of ranking factors on a posting. If you are creating a supplemental question, this is the only field that you must complete before saving a draft version of the question. For ranking criteria, you must also fill in the label and description.
Continue as you would for editing.
After you have defined the information for the item, select Create to apply your changes and view a summary page, or select Cancel to return to the list without saving your changes.

Search Committee Member Tab

The Search Committee feature works with the Ranking Criteria tab. To provide a member of your Search Committee access to this posting to complete the ranking criterion for candidates, they must have a “Search Committee” user status and be linked to your posting.

Use the “Search” feature to see if your Committee member may already have this user status because they previously served as search committee member on another search.

Note: Search Committee Members are assigned per posting. If an employee is selected as Search Committee Member to three separate postings, the employee must be linked or assigned to each of the three postings individually by the creator of the posting.
Search Committee Member Tab  
(continued)

After searching to find if your Committee Member has this user status, you find that Panel Member 1 and Panel Member 2 have the user status of Committee Member, simply click on “Add Member”.

To select a member as the Committee Chair, click on the box. A Committee Chair is able to view each Committee Member’s evaluations and you can choose multiple members as the Chair.

Select to continue.
Summary Tab

The Summary Tab provides you the opportunity to review the posting request and make any changes before submitting it to Employment.

This section provides information on the Posting such as Type of Position, Department, who created it and the Owner of the posting at this point.

This section allows you to decide what action to take.

After selecting to Move to Search Chair a Comment Box appears allowing you to provide comments. Please keep in mind these comments will appear in the email sent to Employment and will become a permanent part of the recruitment file and cannot be removed.
Summary Tab
(continued)

Information regarding the posting will appear at the top such as this error message. Make any corrections necessary before submitting action again.

A successful message will appear once the action has been moved to the next approver.
