The following table and chart show the unduplicated students (unique degree completers) head count in each degree level, which means if an undergraduate's first and second major were both in STEM fields, this student was only counted once in the following table/chart. Thus, the head count shown below is smaller than the total number of degrees conferred in first and second major in the table above.

Chart GRD 5.1 STEM Degree Head Count by Degree Levels: 2009-2023

Note: numbers at various degree levels represents unduplicated head count. The total included duplicates if there were students completed STEM degrees at more than one degree level within the same academic year

Year includes leading Summer, Fall, and Spring, e.g., 2019 refers to Year 2018-19, which includes Summer 2018, Fall 2018, and Spring 2019.

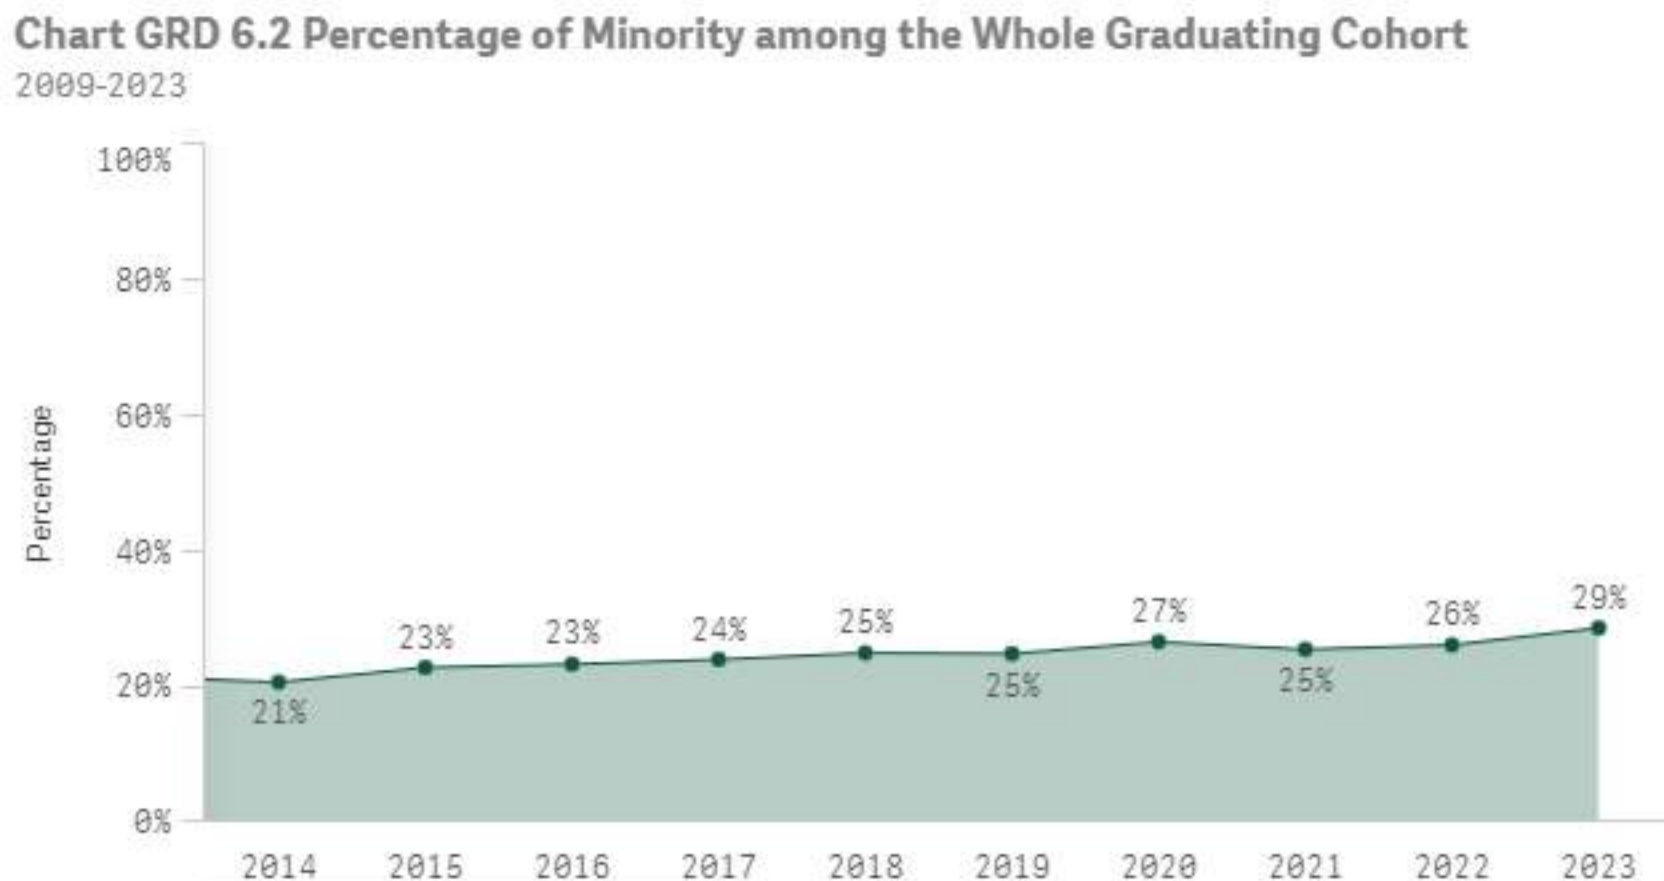

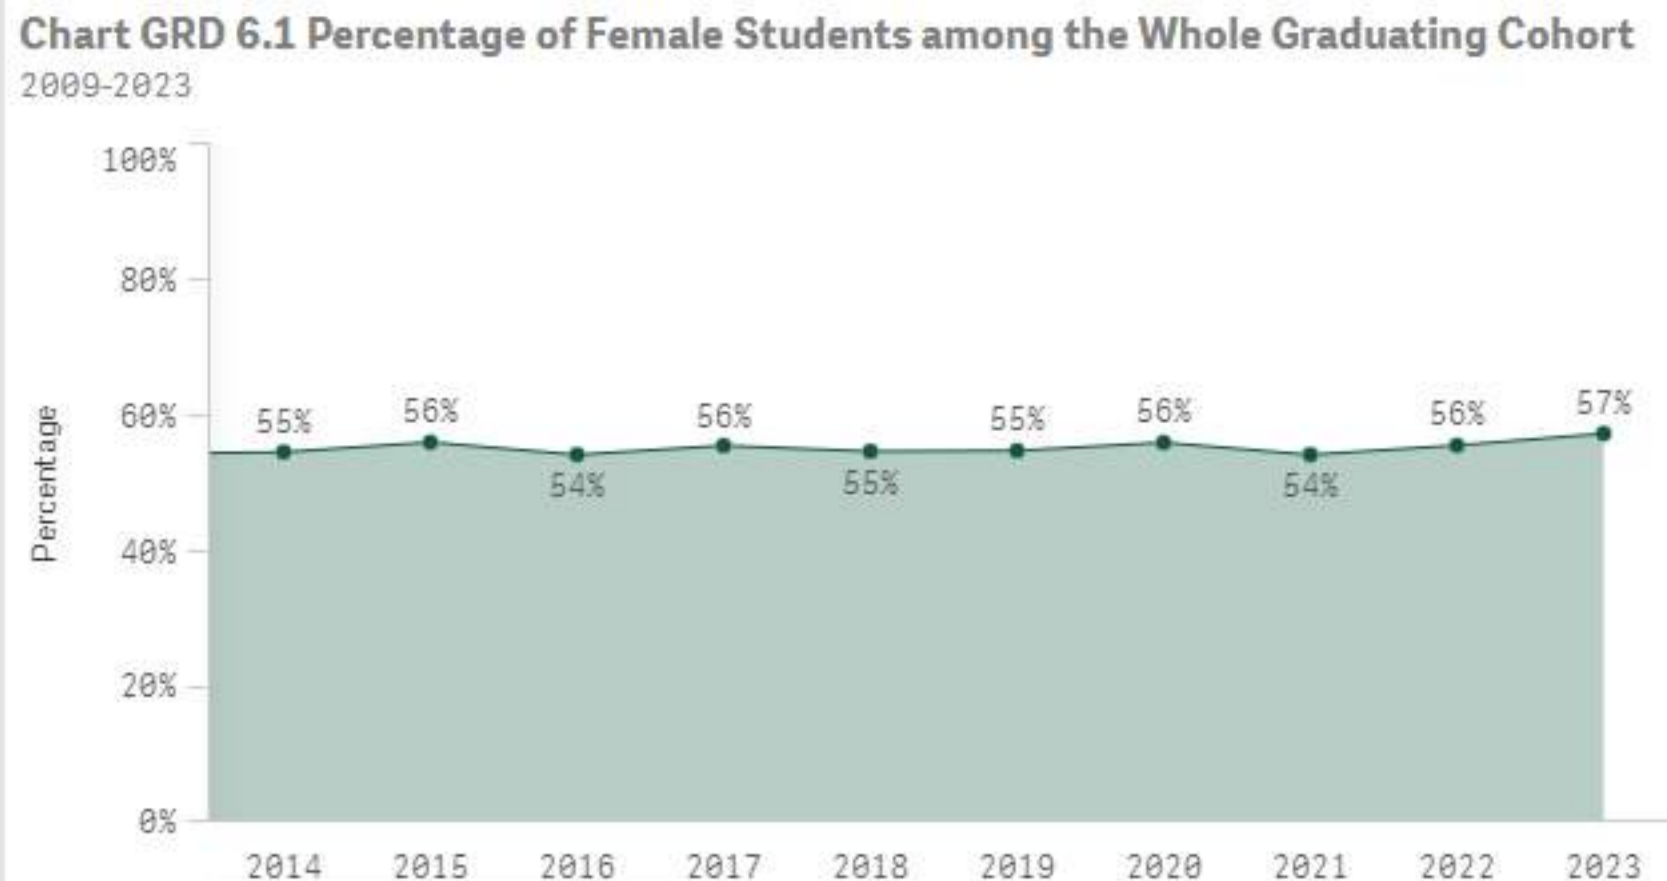

Table GRD 5.2 STEM Degree Head Count by Degree Level and Gender : 2009-2023

Note: numbers at various degree levels represents unduplicated head count. The total included duplicates if there were students completed STEM degrees at more than one degree level within the same academic year
