Better Know a PRC Resource!

In each issue of The Post, we feature a resource or item in the PRC that you may or may not know about. Hopefully this will help you maximize your potential in creating bulletin boards and programs—in the PRC, the only limit is your imagination! For this issue, Better Know a PRC Resource is featuring...

Photofont

This PRC Resource is a great computer program that you can use to create attractive and unique word-based images for your boards or programs (the “Programming Post” title was made using Photofont)! You can use one of the program’s pre-loaded images or use your own as the background for whatever font and size your heart desires. Photofont is installed on every computer in the PRC, so check it out!

DID YOU KNOW...?
You can use the Programming Database to *find* programming ideas, not just input yours! Try out the “Search Programs” and “Calendar” features!

PRC Website Update!
<http://www.wm.edu/prc>

We have a BRAND NEW website for the PRC! Many of our features have

New Poster Printers!!

Some great new poster printers have been given to or created in the PRC, including ones about the flu and health care reform!

Meet the PAs!
