## Canada

## McGill University Exchange

The tuition exchange agreement between the College of William and Mary and McGill University allows William and Mary students to pay their regular tuition to William and Mary while taking classes at McGill.

McGill University, with its main campus situated in downtown Montreal, Quebec, is considered among Canada's best universities. It is a cosmopolitan institution, hosting students from all over the world. McGill is proud of its wide array of historical figures, such as Ernst Rutherford, famous for his discoveries on radioactivity and the atom's nucleus; James Naismith, who invented the game of basketball; and Star Trek's William Shatner.

A wide assortment of student-run clubs and services (a complete list at [www.ssmu.mcgill.ca](http://www.ssmu.mcgill.ca)) make it very easy to ally with an organization of some sort; and should the selection not suffice, students are encouraged to form their own interest groups. McGill also has excellent athletic facilities and offers student rates at the Currie Gym for martial art, dance, sport, recreation and better-living classes.
