

April 2014

College of William and Mary Applied Research Center Student Newsletter

April has been a busy month!

More Lab News

Nick was able to assist Brittany Carmon and Tomas Souto de Carvalho, both Hampton University students, with their analysis of several samples with the Phenom microscope.

Lab visitors are pictured here discussing equipment capabilities with XRD tech Jeremiah after he completed his bi-annual service call.

Sandra Prior, William and Mary's Director of Environment, Health, & Safety, came to the XRD lab to perform a radiation safety check.

More Lab Tours

Amy (right) conducted a lab tour for Chad Schennum, Senior Forensic Scientist, Trace Evidence, Virginia Department of Forensic Science, Central Laboratory, and Keena Zitkovich also from the Virginia Department of Forensic Science.

Olga (left) is pictured here demonstrating the Hirox to Helmut Baumgart, Professor of Electrical Engineering and Virginia Microelectronics Consortium Endowed Chair at Old Dominion University, and a group he brought to the lab from campus.

Ron Outlaw brought a group of visitors to the lab for a tour, and Olga was able to provide a demonstration with the Hirox. Tour participants (below) included Matthew Ervin, a Research Chemist at the US Army Research Lab in Adelphi, Maryland, Sam Parler, Research Director at Cornell Dubilier Electronics, Inc. in Liberty, South Carolina, John Miller, President of JME, Inc. in Shaker Heights, Ohio, Sue Butler, a Senior Scientist also at JME, and Dilshan Premathilake, a William and Mary graduate student in Applied Science.

Wouter Deconinck, William and Mary Assistant Professor of Physics, and Valerie Gray (far right), a William and Mary graduate student in Physics, brought Anashe Bandari, a prospective graduate student, to the lab for a tour with Amy.

Congratulations to Amy for her work with the Boys and Girls Club!

Amy attended the Recognition Reception hosted by the William and Mary Office of Diversity and Equal Opportunity on April 16th and received an award for her leadership and work in the area of diversity. The recipients were nominated by campus peers and Amy was nominated by Lydia Whitaker.
