MEMBERSHIP AND ADMINISTRATIVE POLICIES

MEMBERSHIP

Registration establishes you as a member of the Christopher Wren Association (CWA) each semester.

There are two types of memberships: Regular ($100 per semester) and Associate ($45 per semester).

Regular members of CWA are permitted to register for up to fifteen (15) units at the time of registration. You must be registered for each course and activity you attend. Activities (AC) do not count against the 15-unit limit. You are also entitled to register and pay for special event trips. The Earl Gregg Swem Library of The College of William and Mary offers regular members borrowing privileges through membership in The Friends of the Library at a reduced rate of $50. Please present your current CWA name tag at the circulation desk to receive an annual borrower’s card.

Associate members are entitled to attend ONLY the Town and Gown Noon Lecture Series Activity (AC-D01) and to register and pay for special event trips.

ADMINISTRATIVE POLICIES

Attendance
As a courtesy to instructors and fellow members, please select your courses with the intention of attending all sessions. Absentee registered students result in underutilized classroom space and missed opportunities for members on the wait list.

Dropping a Course
If you need to drop a course before it begins, please notify the CWA office so they may contact the first person on the wait list to fill the available seat.

Guests
Christopher Wren courses and activities are intended for Christopher Wren members. A member's guest may attend a course or an activity once as long as the course is not fully subscribed. Local guests must be considering joining Christopher Wren. The CWA office must be informed prior to any guest attending.

Inclement Weather Policy
CWA will cancel courses/activities/events for weather if the Williamsburg/James City County (WJCC) public schools are closed to students. If WJCC Schools are delayed, CWA will continue as scheduled. A notice will be on the CWA office voice mail (757-221-1506) and on the WJCC Web site (http:wjccschools.org/web/). Please note, you will not be personally contacted.

Name Tags
Online registrants will receive their name tag by e-mail approximately two weeks before courses begin. Mail-in registrants will be mailed a confirmation of their course(s) and a name tag. Plastic name tag holders will be available on the first day of your course. Please wear your name tag to all CWA events.

Open Enrollment
Beginning January 11, any course that is not fully subscribed can be added to a regular member’s registration on a first come, first served basis. There is no additional charge and the 15-unit registration limit no longer applies as of the open enrollment date. You can obtain a list of open courses on the website. Open enrollment is accepted by phone (757-221-1506) or by e-mail (ChrisWren@wm.edu) beginning January 11.

Refunds
Refunds will not be given after the first day of the semester (January 25). If you need a refund before that date, submit your written request to ChrisWren@wm.edu.

Wait List
If you registered online and a class you wanted was full, call or e-mail the office beginning December 15 to be added to a wait list. If you registered by mail and a requested course is full, you will automatically be added to the wait list beginning December 15. You will be notified if a space becomes available. Until you receive notification from CWA staff, you may not attend classes for which you have been wait listed.
Online registration and payment is available for regular members. Visit our website at www.wm.edu/cwa for a link to the online registration site and registration instructions. Registration opens on December 1 at 8:00 a.m.

If you have previously registered online, take a minute to log in before December 1 to ensure you remember your login information. If you cannot remember your password, watch the video on our Web site, which explains how to reset your password.

REGISTER AND PAY BY MAIL

Mail-in registration is on a first come, first served basis, beginning December 1. Because we only reserve a small number of seats for mail-in registrations, we encourage any members who can to register online. Registrations received before registration begins will be randomly processed beginning December 1.

Please use a separate registration form and an individual check for each person enrolling. Note that we can accept manual registrations by U.S. mail only. Walk-ins are not accepted.

REMEMBER TO CHECK OUT ACTIVITIES AND ONE-TIME LECTURES

Activities and one-time lectures are located after regular courses.

HOW THE COURSES ARE ORGANIZED

Each course number is identified first by a two digit category code followed by a three digit number (example: AH-A01). The category codes are described below. CWA Spring 2016; Jan 25 - May 13
FAILED STRATEGIES: THE ENGLISH CROWN'S ATTEMPT TO SUBJUGATE THE AMERICAN COLONIES

Course #: AH-B15  Units: 3  Class Size: 30  Apr. 25, 27, 29

School of Education - Room 2066  Mon., Wed., & Fri., 9:30 AM to 11:30 AM

Instructor: Roderick Lenahan, B.S. University of Maryland, master's from Central Michigan University, distinguished graduate from Defense Intelligence College (DIC), 32 years as intelligence officer. Adjunct professor at DIC, ten years as program manager for Booz Allen & Hamilton and BAE Systems. Author of two books on American military history, and working on a third, tour guide at Jamestown and Yorktown historic sites.

Description: The English Crown attempted to resubjugate the American Colonies using a progression of strategies. Each failed in its turn. The failures were caused for the most part because the Crown attempted to apply the logic of the European war model and underestimated the challenges of the 900 mile American battlefield and logistic shortfalls in trying to wage a conventional war against an enemy capable of contesting the outcome through both conventional and guerrilla warfare. This course presents the military events of each strategy and balances the telling of the normal textbook version of the conflict, which essentially focused on events in the northern colonies. This presentation completes the tapestry with the critical actions which occurred principally in the Carolinas that laid the foundation for surrender at Yorktown.

Reading: None.

SLAVES AND MASTERS IN VIRGINIA: 1775 TO 1860

Course #: AH-B19  Units: 6  Class Size: 40  Mar. 15, 22, 29, Apr. 5, 12, 19

5300 Discovery Park Blvd., Rm 136, New Town  Tuesday, 9:30 AM to 11:30 AM

Instructor: Anne Willis, B.A., history, Duke University; M.A., American studies, The College of William and Mary. For over 30 years she worked for Colonial Williamsburg as a teacher, researcher, and writer concentrating on the character of colonial society, with a particular interest in slavery and its influence on all Virginians, free and enslaved.

Description: This course will examine the ever-changing lives of enslaved people and their masters in Virginia from 1775 to 1860 as they were transformed by state and national events, economic circumstances and philosophical attitudes towards the institution of slavery as the nation found itself divided as it moved closer to civil war.

Reading: None.

THE OLD FIRST LADIES

Course #: AH-B43  Units: 3  Class Size: 115  Mar. 17, 24, 31

Wightman Cup Room, W&M Hall  Thursday, 9:30 AM to 11:30 AM

Instructor: Feather Schwartz Foster, transplanted from New Jersey, is the author of Ladies: A Conjecture of Personalities, Garfield's Train: A Novel (a children's book) and The First Ladies. She has lectured extensively around New Jersey. Mrs. Foster has appeared on Virginia Currents and has lectured several times at the DeWitt Wallace Museum.

Session 2: The Civil War Divas: Mrs. L. and Mrs. G.; Mary Lincoln and Julia Grant towered above all other women during the Civil War.
Session 3: The FLs of the 20s: Florence, Grace and Lou; they didn’t roar, they didn’t flap, but Florence Harding, Grace Coolidge and Lou Hoover starred in the White House in their own ways! NOTE: This is a repeat of a course given in 2009.

Reading: None.

THE STORY OF ROCKEFELLER CENTER AND THE MEN WHO BUILT IT

Course #: AH-B52  Units: 3  Class Size: 40  Apr. 28, May 5, 12

5300 Discovery Park Blvd., Rm 136, New Town  Thursday, 9:30 AM to 11:30 AM

Instructor: Jim Morford is a former public school social studies teacher and part-time Rutgers University instructor. For over 30 years he was a registered government relations agent in New Jersey where he worked with state government officials and the New Jersey congressional delegation. Presently retired, he remains a partner in a consulting firm based in Trenton, New Jersey.

Description: This course will reveal the epic story of the building of what, at the time, was the world’s grandest privately funded construction project, and the eclectic cast of characters who made it happen. It is a story based on Rockefeller money and of personalities that include, among others, the redoubtable Nicholas Murray Butler, the genius of John R. Todd, the architectural expertise of Raymond Hood, the chutzpah of S. L. “Roxy” Rothafel, the PR skills of Ivy Lee, the scheming of David Sarnoff, the controversial art of Diego Rivera, and Nelson’s ambition.

Reading: Suggested: Great Fortune: The Epic of Rockefeller Center by Daniel Okrent.
### ROANOKE ISLAND AND THE LOST COLONISTS

**Course #:** AH-B54  
**Units:** 3  
**Class Size:** 115

Instructors: Sandra Stephan earned her B.A. from Old Dominion University and her M.A. and Ph.D. in English from Tulane University. She is professor emerita, Youngstown State University and has taught 18th century British literature for three decades, as well as courses in medicine, literature and writing. Among his most popular works is his opera The Rake's Progress (1951), inspired by a set of engravings of the same title by the 18th century British artist William Hogarth. The result is a blending of the character of 18th century opera with the most distinctive style of Stravinsky's musical language. In this class, we will explore the artistic world of both Hogarth and Stravinsky, discussing first Hogarth's engravings and how to "read" them and then how these works translate into the opera's libretto, written by the poet W.H. Auden, and its musical setting by Stravinsky.

If the Rule of Law is a critical component of reconstruction efforts, why is it so difficult to institutionalize? Creating an environment in which the Rule of Law can serve as a framework for peace, security and economic development requires more than simply strengthening legal institutions and training justice sector personnel. More complex issues such as political and cultural considerations that impact a society's commitment to values associated with the Rule of Law must also be addressed. Course #: GL-A50  Units: 3  Class Size: 115  Feb. 18, 25, Mar. 3
Wightman Cup Room, W&M Hall  Thursday, 2:00 PM to 4:00 PM

Instructor: Michael Kerley received his B.A. in government from the University of Notre Dame and his J.D. from the National Law Center at George Washington University. He practiced securities and insurance law with a national insurance company for over 30 years, often speaking at industry seminars and conferences.

Description: Our Constitution is a remarkable, but very curious document. Terms that we expect to find in the Constitution, such as “separation of powers,” “federalism,” and “checks and balances” are conspicuously absent. Yet, peculiar provisions such as “corruption of blood,” “letters of marque and reprisal,” and “bills of attainder” are scattered throughout the document. In this course we will examine the Constitution through this unique prism. Using the Framers’ own words and modern-day examples, we will unravel some of the mysterious text of the Constitution and obtain a deeper understanding of and appreciation for this fascinating document.

**Instructor:** Elaine Themo  
*taught sociology at The College of William and Mary for 34 years. Before that, she was part of a research/writing team working on area handbooks for the Department of Defense, writing the chapters on cultural context. Her graduate degrees are in sociology, cultural anthropology, and international relations and organization.*

**Description:** Jane Austen is known for writing the perfect novel. Her portrayal of the cultural setting was precise and concentrated on the country gentry. She relied on her readers’ familiarity with the culture and nuances of the era. Today many readers do not possess such awareness. We will explore this through her early novels as her writing style evolves. She is renowned for her comic irony, and many feel she never wrote a bad sentence, mostly with tongue planted firmly in cheek. We start by exploring her first book (optional reading), *Northanger Abbey*. Then we will read *Sense and Sensibility* and *Pride and Prejudice*.

### JEFFERSON'S NOTES ON VIRGINIA

**Course #:** LI-A22  
**Units:** 3  
**Class Size:** 100  
**Dates:** Feb. 16, 23, Mar. 1  
**Time:** Tuesday, 1:30 PM to 3:30 PM  
**Location:** Little Theatre, W&M Campus Center

**Instructor:** Susan Kern  
*executive director of Historic Campus at The College of William and Mary. She has an M.A. in architectural history from University of Virginia and a Ph.D. in history from The College of William and Mary. Since 2005 she has taught at The College of William & Mary for the history department and the NIAHD program.*

**Description:** Thomas Jefferson’s only book (published in 1785) offers a view of eighteenth-century Virginia like no other. In addition to reporting his scientific observations on things as diverse as mineral resources, lists of animals and birds, and fossil formations, Jefferson recorded population numbers of Native Americans, and commented on Virginia’s buildings, government, and education system; he also wrote some of his most racist judgments about African Americans. Notes offers a singular opportunity to explore the promise and problems of Enlightenment America through the pen of one of its most complicated protagonists.

### THE SELF IN SOCIETY: WHARTON'S THE AGE OF INNOCENCE AND FORSTER'S HOWARDS END

**Course #:** LI-A34  
**Units:** 6  
**Class Size:** 30  
**Dates:** Jan. 27, Feb. 3, 10, 17, 24, Mar. 2

**Instructor:** Betsy Hollins  
*B.A. Wellesley College, M.A. Brown University, M.A.L.S. Wesleyan University. Studied literature and history. Forty-year teaching career in Vermont and Rhode Island teaching English at the high school level (including Advanced Placement classes).*

**Description:** Though the “alienated hero” is a commonplace of contemporary literature, novelists Edith Wharton and E. M. Forster did not focus on existential angst, but on the self in society. Their protagonists exist within the complex social milieu of 19th century America or England; their novels explore the options open to the individual in the social world that he or she inhabits. In this course we will examine what these two novels have to say about the power of society, the moral responsibility of the individual, and the tension – if not collision – between love and class, idealism and materialism, and independence and convention. What do they tell us about the perils of conformity, the risks of non-conformity?

Description: Every ancient Athenian knew the terrible story of Orestes and his awful family. But in these plays Aeschylus transcends the legend to turn it into an explanation and celebration of how Athens had transcended its earlier self into a "modern" (for its time) state. We'll get to talk about how law, religion, drama, civic development, and political philosophy all play a part in this famous trilogy that begins when the king of Argos returns as a victor from the Trojan War to a most unpleasant homecoming.

Course Name: LITERARY WRITING SEMINAR: MASTERING THE ART OF DIALOGUE

In this course we will explore dialogue through a series of lectures on craft as well as in-class analysis of various literary texts from plays, film and fiction to discover what "works" and why – and what doesn’t. In-class writing exercises will promote practical application of lecture material and analysis of texts and supplemental reading and writing assignments will be offered. **Course Name:** DEVELOPING A PHOTOGRAPHIC EYE: PART I

**Course #: PH-B42**  Units:  3  Class Size: 40  Apr. 27, May 4, 11

5300 Discovery Park Blvd., Rm 136, New Town  Wednesday, 1:30 PM to 3:30 PM

**Instructor:** Norm Rictor  taught history and social studies in the secondary schools of Baltimore County, Maryland. Photographers are confronted by the realization that the human eye and the camera lens see the world in significantly unique ways. Dealing effectively with these differences involves applying the elements of graphic design and arranging elements within the photograph according to generally accepted principles of composition. Studying and analyzing the well-composed photographs of others and applying those skills to one's own work will encourage creativity and the development of a personal photographic style.

DEFINING JESUS: TO WHAT DOES THE NAME REFER?

Course #: RP-A09 Units: 3 Class Size: 80 Feb. 15, 22, 29
WindsorMeade - Ballroom Monday, 9:30 AM to 11:30 AM

Instructor: Richard Soulen, Ph.D. in biblical studies at Boston University, with post-doctoral work in Heidelberg and Claremont, CA. He had 30 years of teaching at the seminary level, including United Theological College in India. Recent publications include *Sacred Scripture: A Short History of Interpretation* (2010) and *Handbook of Biblical Criticism* (4th ed. with his son, 2011).

Description:Modifiers change the meaning of nouns, as is the case of "ball" in the words football, Grand Ball, and snowball. So "the earthly Jesus," "the biblical Jesus," "the historical Jesus," and "the real Jesus" refer to different ways of thinking about "Jesus." These lectures are about the content of each reference and how not to confuse them. Responding to previous suggestions, considerable time will be allotted to discussion.

A restful feeling settles at the end that all faiths strive for mankind's betterment through a common spirituality.

ELDERING: ENTERING THE HOLY WISDOM BEYOND ANSWERS

Course #: RP-A43 Units: 3 Class Size: 40 Jan. 28, Feb. 4, 11
5300 Discovery Park Blvd., Rm 136, New Town Thursday, 9:30 AM to 11:30 AM

Instructor: David Tetrault, D.Min., a retired Episcopal priest, served at St. Paul's, Capitol Square, Richmond and Bruton Parish, Williamsburg. He currently serves the Episcopal diocese in transitional parish ministry positions. David is a professional musician and writer, and has been one of the two chaplains to Ringling Brothers and Barnum and Bailey since 1994.

Description: In recent courses, we've leaned into the deeply profound mysteries that lie just beyond the bounds of both institutional medicine and religion. In plain words, we're all dying. And almost nobody who we depend on really grasps the depth of what it means to set aside old answers. What do we need to know now in order to enter into the wisdom beyond answers?

Reading: Suggested: *Being Mortal* by Atul Gawande.

IN SEARCH OF THE HISTORICAL JESUS

Course #: RP-A46 Units: 6 Class Size: 115 Jan. 29, Feb. 5, 12, 19, 26, Mar. 4
Wightman Cup Room, W&M Hall Friday, 9:30 AM to 11:30 AM

Instructor: Hap White retired early from a career in school and municipal finance to devote more time to his avocation in historical Jesus research. Although he holds both a master's and a doctorate from Old Dominion University, he is self-taught in matters of biblical history and religion. He currently serves as a personal finance representative.

Description: The last few decades revealed many new archaeological, linguistic and textual discoveries relevant to the birth of Christianity. We know more about the special historical, economic, cultural and religious forces in Palestine during Jesus’ life than some of the gospel writers themselves. Who did crowds think they were following when Jesus of Nazareth first appeared - that is, before they knew the end of the story? It is now possible to strip away most of an overlay of post-resurrection revisionism, later interpretation, scribal emendation, and imposed orthodoxy to reveal the core of the message and historical events that formed the basis of the Christian religion.

**THE SHADOW OF THE GALILEAN**

**Course #:** RP-B21  
**Units:** 6  
**Class Size:** 115  
**Mar. 15, 22, 29, Apr. 5, 12, 19**  
**Wightman Cup Room, W&M Hall**  
**Tuesday, 1:30 PM to 3:30 PM**

**Instructor:** Carl E. Roemer

received his doctoral degree from the Lutheran School of Theology at Chicago in 1990 and taught at the State University of New York at Binghamton for ten years with the Judaic Studies Department. His courses included: Second Temple Period (586 B.C.-70 A.D.), Jesus in Context (an historical analysis of the Graeco-Roman and Jewish culture and Jesus’ place within it); Apocalyptic.

**Description:** The title of the course comes from a book by Gerd Theissen, a study of the historical Jesus in narrative form. The story begins as Pontius Pilate, in a general sweep after a riot in Jerusalem, arrests Mitelius who is forced to become an informer reporting on all the various revolutionary groups that threaten the Roman peace. Most of the dialogues in the book are quotations from ancient sources, lending the narrative an amazing authenticity. Students will be required to read Theissen's book and answer questions on each chapter. This course will be a dynamic interaction between the lecturer and attendees.

**BASIC CHRISTIAN ETHICS**

**Course #:** RP-B34  
**Units:** 6  
**Class Size:** 40  
**Mar. 16, 23, 30, Apr. 6, 13, 20**  
**5300 Discovery Park Blvd., Rm 136, New Town**

**Instructor:** Hans Tiefel

earned a B.D. from Yale Divinity School and a Ph.D. in religious ethics from Yale University. He taught for 30 years in the religion department at The College of William and Mary, including teaching a course on death.

**Description:** Ancient Abrahamic religious texts and traditions maintain vital influence in contemporary secular culture. For Christians (and for Jews and Muslims) who identify themselves with these traditions that affect all of life, it proves problematic how to relate their faith to contemporary issues, such as embryonic stem cell research and the Iraq War. We will examine key ethical moves rather than search for principles, norms, ideals, or commandments. We make text and realities speak.

THE DEAD SEA SCROLLS AND THE ORIGIN OF CHRISTIANITY

Course #: RP-B57  Units: 3  Class Size: 115  Mar. 18, 25, Apr. 1
Wightman Cup Room, W&M Hall  Friday, 1:30 PM to 3:30 PM

Instructor: Hap White retired early from a career in school and municipal finance to devote more time to his avocation in historical Jesus research. Although he holds both a master's and a doctorate from Old Dominion University, he is self-taught in matters of biblical history and religion. He currently serves as a personal finance representative.

Description: Although Jesus and Christianity are never directly mentioned in the texts, the scrolls reveal a great deal about the messianic expectations and apocalyptic beliefs that helped to launch the new faith. Not only were many of these texts known to the early followers, the mysterious "holy ones" who collected them called themselves the "Sons of Light," the "Way" and the "Poor," all names adopted by the first Christians. It is even apparent that they formed the bulk of the super orthodox element of the early Jesus movement that both Paul and Acts call derisively "the circumcision party."

Discussion will be limited to topic development, creating questions, and the process of journaling.

**Wightman Cup Room, W&M Hall**  
**Monday, 1:30 PM to 3:30 PM**

**Instructor:** Deborah Jane Wells, author of *Choose Your Energy: Change Your Life!*, helps individuals and teams turn unexplored possibilities into fulfilling realities and step into their greatness. She has over 30 years' experience in consulting and coaching, serving as a partner in four of the world’s most prestigious global professional services firms.

**Description:** Since 1971, when Intel first introduced the microprocessor chip, U.S. productivity has more than doubled. That could have meant twice as much time for fun. Instead, during that same period, our leisure time has decreased by almost 40% while average wages have barely kept pace with inflation. Even once we retire, many of us still find it hard to enjoy life during what we were promised would be our "golden" years. Ready to get off that hamster wheel, reclaim your power and recapture your zest for living? In this program you'll learn practical tools to help you recognize and tame stress in the moment--moving yourself forward into a life you love.

Course Name: MASTERS OF RECREATIONAL MATHEMATICS AND THEIR GREATEST PUZZLES
Course #: SH-B40 Units: 3 Class Size: 100 Apr. 6, 13, 20
Little Theatre, W&M Campus Center Wednesday, 1:30 PM to 3:30 PM
Instructor: Paul Stockmeyer is professor emeritus of computer science at The College of William and Mary. He holds a Ph.D. in mathematics from the University of Michigan, and currently serves as an associate editor of Mathematics Magazine, an expository journal published by the Mathematical Association of America.
Description: French mathematician Édouard Lucas (1842—1891) published four volumes of Récurrences Mathématiques and invented the Tower of Hanoi puzzle. English puzzle master Henry Dudeney (1857—1930) published some of his best creations in his book The Canterbury Puzzles. His American contemporary Sam Loyd (1841—1911) invented hundreds of puzzles, but probably not all that he claimed. American Martin Gardner (1914—2010) wrote the monthly “Mathematical Games” column in Scientific American magazine from 1957 through 1981, inspiring many of today’s mathematicians. This course will examine the lives and mathematical recreations of these and other puzzle masters.

Course Name: A HEALTHY GARDEN
Course #: SH-B50 Units: 3 Class Size: 100 Apr. 7, 14, 21
Little Theatre, W&M Campus Center Thursday, 2:00 PM to 4:00 PM
Instructor: Helen Hamilton taught biology in local high schools and worked as a plant technician for the National Park Service. Currently she is publicity chair for the Williamsburg Botanical Garden, has written a wildflower book, and is creating plant books for local parks.
Description: Lots of blooming flowers on perennials, shrubs, and trees comprise a garden that provides niches for many species of insects, some feeding on our plants, others feeding on each other. But without them, no flowers will bloom, no fruit will appear, and no plants will set seed. Many of our familiar garden plants have clever color patterns and scents to attract specific insects, which are rewarded with nectar and incidentally perform pollinator services. Handouts and PowerPoint slides will show plants and insects, including our common butterflies, in meadows, woodlands, wetlands, and other typical home garden habitats.

In most Bibles, Malachi and Matthew are separated by a few pages of indexing information...or perhaps two or three essentially blank pages. Those innocuous pages between Malachi and Matthew represent over 400 years of tumultuous history. Empires, tyrants, conflicts, cultures, and religions play out on the stage we often call the Holy Land. This course will cover the history of the Holy Land during the timeframe between the testaments.

Course Name: TERRORISM ON OUR DOORSTEP: HOW DID IT EVER COME TO THIS?
Course #: AC-L01
Units: 0
Class Size: 150
Jan. 26

Wmsbg. Library, 515 Scotland St., Theatre
Tuesday, 9:30 AM to 11:30 AM

He has conducted government-related and private industry activities throughout the Middle East and Persia. He holds graduate degrees in National Security Affairs and Management.

Description: The most dangerous terrorist threat of the 21st century is on the move. The Islamic State of Iraq and Syria (‘ISIS’) is growing larger, richer, and more lethal as it inflames the Middle East and North Africa while reaching deeper into Europe and even the U.S. Events in the Middle East are rarely what they appear to be, and this time ‘the enemy of my enemy’ is proving not our friend, but rather just one more enemy. Where did ISIS come from and where is it going? This look at modern-era terrorism offers a timely perspective on this most relevant question.

Course Name: EXPLORING THE CHESAPEAKE BAY’S DYNAMIC ECOSYSTEM
Course #: AC-L02
Units: 0
Class Size: 30
Feb. 23

Virginia Living Museum - Lab Classroom
Tuesday, 9:30 AM to 11:30 AM

Instructor: Dan Summers is the education director at the Virginia Living Museum in Newport News, and has served within its education department for nearly 20 years. A former public school classroom teacher, Dan has extensive experience teaching all age groups and interests, in classrooms and in the field.

Description: Through hands-on activities, demonstrations and discussion, participants will learn about some of the engaging physical, chemical and biological features of North America’s largest estuary system. From the network of freshwater rivers that flow into the Bay to its opening on the Atlantic Ocean, the Chesapeake Bay is a fascinating and dynamic ecosystem. We’ll consider how ocean saltwater influences the Bay, what kinds of amazing organisms make it their home, the different kinds of habitats found in and around the Bay, and some of the human uses and misuses. Participants are encouraged to explore the museum’s indoor and outdoor exhibits either before or after the presentation.

Note: This course has an additional $15 fee for the presentation and admission to the museum's exhibits.

TERRORISM ON OUR DOORSTEP: HOW DID IT EVER COME TO THIS? (REPEAT 1)

Course Name: TERRORISM ON OUR DOORSTEP: HOW DID IT EVER COME TO THIS? (REPEAT 1)
Course #: AC-L03
Units: 0
Class Size: 100
Feb. 17

Little Theatre, W&M Campus Center
Wednesday, 1:30 PM to 3:30 PM

Instructor: Michael Haas, Col., USAF, ret., served in the Pentagon as a Low Intensity Conflict specialist and Defense Intelligence Agency analyst: Terrorism and Middle East Affairs. He has conducted government-related and private industry activities throughout the Middle East and Persia. He holds graduate degrees in National Security Affairs and Management.

Description: The most dangerous terrorist threat of the 21st century is on the move. The Islamic State of Iraq and Syria (‘ISIS’) is growing larger, richer, and more lethal as it inflames the Middle East and North Africa while reaching deeper into Europe and even the U.S. Events in the Middle East are rarely what they appear to be, and this time ‘the enemy of my enemy’ is proving not our friend, but rather just one more enemy. Where did ISIS come from and where is it going? This look at modern-era terrorism offers a timely perspective on this most relevant question.

### CANCELLED ISLAM: AN OVERVIEW

**Course #:** AC-L09  
**Units:** 0  
**Class Size:** 60  
**Mar. 17**

**Instructor:** Shubir Ghosh  
was a teacher and business executive in India, where he lived for 50 years. He immigrated to the United States in 1991 and continued working here in both of these professions until he retired. His interest in spirituality and his experience in the East make his presentation unique.

**Description:** The lecture explains the origin of Islam and its interrelationship with neighboring religions of the Middle East. Islam has had a phenomenal spread to the east and the west. We will examine the importance laid upon the teachings of the Quran and its powerful and benevolent influence on all aspects of a dignified human life. We will also look at the current challenges and opportunities being faced by Islam. The instructor’s experiences in India, which carries the world’s second largest Muslim population within a secular, democratic society, makes his presentation insightful.

### RE-IMAGINING A RUIN IN VIRGINIA'S NORTHERN NECK

**Course #:** AC-L11  
**Units:** 0  
**Class Size:** 40  
**Mar. 22, 29**

**Instructor:** Sarah Pope  
has served as the Executive Director of the Menokin Foundation since 2005. She holds a B.A. from The College of William and Mary, a Master of Historic Preservation from the University of Georgia, and a certificate in nonprofit management from George Mason. She has a special interest in community planning, heritage education, and the revitalization of historic buildings as an economic development tool. Sarah led a Historic Preservation class at Rappahannock Community College and lectures for the Rappahannock Institute of Lifelong Learning.

**Description:** We will explore the Menokin Foundation’s pursuit of its visionary Glass House Project. The Foundation, which owns and operates a 500 acre site and the ruins of the home of Declaration of Independence signer Francis Lightfoot Lee, does not intend to reconstruct Menokin as yet another “house museum.” Instead, it is pursuing something never before attempted in historic preservation circles: use structural glass to recreate an abstract memory of an 18th-century house as it once stood while protecting what remains of it today. The second session will be a field trip to the Menokin site in Warsaw, VA.  
**Note:** An additional fee of $23.00 per person will be required for transportation for this trip.  
**Bus departure and return information will be provided to registrants before field trip.**

**Reading:** Suggested:  
*The Lees of Virginia: Seven Generations of an American Family* by Paul Nagel.

What moved me.

“As a career journalist, I have reported for newspapers in Memphis, Raleigh, NC, and Phoenix and, after 1980, the Los Angeles Times. With each move, I had enjoyed a newspaper community, and that’s what I wanted after retirement: a community.

I heard about the Continuing Care Retirement Community (CCRC) concept and I liked it. This launched years of research, and as the CCRC movement grew, I visited communities across the country of every variety and developed a lengthy priority list which included cultural life, a top-notch gym, excellent food, and—please!—large, airy rooms with lots of closet space.

When Williamsburg became my destination for family reasons, I went to the computer with my fingers crossed. There, among a maze of retirement websites I found a beautiful place called WindsorMeade. As I checked off my priorities and WindsorMeade met them all, I stopped holding my breath. I had found my community.”
