SUBJECT: Specified-Term Faculty Report

In accordance with the *Faculty Handbook*, Section III.B., I am providing a report on the specified term appointments for Fall 2013.

- The first table provides information concerning the Fall 2013 full-time faculty (primarily instructional) by school and subdivided into the categories used for the Specified-Term Report. Instructional faculty for this report may not be identical to official IPEDS figures.
- Table 2 provides of the full-time tenure ineligible faculty, categorizing by department as well as school.
- Table 3 details the salary averages, minimum and maximum by school, including those in specified-term appointments. Salaries are adjusted for appointment percentage and for contract length.
- Table 4 shows the teaching loads for all those in full-time specified-term appointments.

Also included among the attachments – in PowerPoint format – is a set of bar graphs that shows the instructional activity by the different categories.

I will be happy to provide further information to the Faculty Assembly.
