

# Duo First-Time Enrollment

## Mobile Phone

These instructions are for the initial setup of a smartphone with Duo two-factor authentication. If you already have a device configured with Duo and need to make changes to your authentication method, please see the Device Management instructions.

1. Downloading the Client to your mobile device
2. Register your Mobile Device with Duo

Downloading the Client to your mobile device	
<p><b>On your mobile device:</b></p> <p>Download the Duo app from the “App Store” of your device.</p> <p><a href="#">Download Duo Mobile for iPhone</a></p> <p><a href="#">Duo Mobile for Android</a></p>	
Register your Mobile Device with Duo	
<p><b>On your computer:</b></p> <p>Via a web browser, go to: <a href="https://2f.wm.edu/">https://2f.wm.edu/</a> and click “Login to W&amp;M”</p>	
<p>Click “Start Setup”</p>	

<p>Select "Mobile Phone"</p>	
<p>Enter your phone number including area code.</p> <p>Click "Continue"</p>	
<p>Once you have installed the Duo Mobile app (see first step),</p> <p>Click "I have Duo Mobile installed"</p> <p>A QR code will now appear on your screen as shown</p>	
<p><b>On your mobile device:</b></p> <p>Open the Duo app and Click: "Add Account"</p> <p>Scan the QR code from the previous step.</p> <p>Each code is unique so be sure to only scan your code.</p>	

Congratulations, you have successfully signed up for the Duo mobile service.

Check the box next to “Automatically send me a” select “Duo Push”

Click “Save”

Setup is now Complete.
