CAMPUS SAFETY & SECURITY

ANNUAL REPORT

SAFETY AND SECURITY

The safety and security of any community is a responsibility that is shared among all members of the community and can only be accomplished through the full participation of the community.

William and Mary has made steady progress in maintaining a safe environment. We will continue to develop these initiatives with a focus on increasing community participation.

ELEMENTS OF SAFETY AND SECURITY

- A culture that places a premium on having a safe campus.

- Understanding the potential threats faced by the university and the best methods of reducing the likelihood or mitigating the effect of an incident.

- Policies that increase safety without compromising the character of the community.

- The ability to respond in a timely and effective manner to threats when presented.

- Educational opportunities provided to the community.

EXERCISES

In the last year the College has;

- received and provided training on incident command,

- completed table top exercises,

- completed numerous building emergency plans,

- completed fire drills and exercises,

- streamlined our communications processes and clarified responsibilities during an emergency, and

- progressed to the point where we are planning a multi-jurisdictional field exercise for the spring.

EMERGENCY COMMUNICATIONS

- Mass Notification System

    The College has designated three levels of emergencies. The nature of the threat will determine the communication systems used to inform the community of the actual or potential emergency.

    - Potential threat
        - This is an emergency where the conditions are favorable for the incident to occur, or for an event that happens off campus that is likely to have an impact on the College at some point in the near future. Examples of this are usually weather related such as predicted hurricanes and ice storms or manmade incidents such as a chemical spill or fire near campus.
    - Imminent threat
        - An imminent threat is an event likely to affect the College within the next several hours but currently has not seriously affected the College
    - Active Threat
        - An active threat is usually a spontaneous event that comes without warning requiring immediate action to prevent the loss of life.

- The University has begun utilizing social media to increase the reach of emergency notifications.

    The police department is authorized to send a warning to the community w/o approval in situations that require immediate community notification.

EMERGENCY MANAGEMENT COORDINATOR

- Develop and maintain response and continuity plans.
- Assure consistency among plans, programs, and other emergency initiatives.
- Prepare annual state reports.
- Develop and deliver community training.
- Support Emergency Management Team.
- Manage the College Emergency Operations Centers.
- Prepare after action report after exercises and events.

ACCIDENT AND INCIDENT PREVENTION

Campus initiatives (Partial list):

- Pre-hire background checks
- Hazardous material training
- Fire safety inspections
- Driver training courses
- Information Technology security programs
- Threat Assessment program
- Weapons ban regulation
- Development of policies, procedures, and platform for university camera system
- Upgrade of the access control system

OPERATIONAL READINESS

- Robust and redundant emergency communications system that can be activated in minutes.

- Region wide interoperable radio system.

- High level of cooperation with local responding agencies.

- Continued development of the emergency response plan along functional lines.

- Development of field exercises.

CHALLENGES

- Increasing awareness of potential threats without causing fear. Williamsburg is not immune to the changes affecting society.

- Creating a culture of risk management and safety at the individual level.

- Ensuring that community members take emergency notifications seriously and respond as instructed.

- Identifying and adopting best practice technologies that both protect and respect the community.

- Measuring the success of a response - more than the timeliness of the campus notification.

CURRENT STATISTICS

Annual Clery Campus Crime Statistics
For the College of William and Mary

Criminal Offense	2002	2003	2004	2005	2006	2007	2008	2009	2010
Murder/Non-negligent Homicide	0	0	0	0	0	0	0	0	0
Negligent manslaughter	0	0	0	0	0	0	0	0	0
Sex offense- Forcible	5	1	4	8	2	5	4	3	3
Sex offense- Non-forcible	0	0	0	0	0	0	0	0	0
Robbery	2	1	0	0	1	0	0	1	0

[1] The student enrollment figures provided by the United States Department of Education are for the 2008 school year, the most recent available. The enrollment figures include full-time and part-time students.

NOTE: Caution should be exercised in making any intercampus comparisons or ranking schools because university/college crime statistics are affected by a variety of factors. These include demographic characteristics of the surrounding community, ratio of male to female students, number of on-campus residents, accessibility of the campus to outside visitors, size of enrollment, etc.

EMERGENCY RESPONSE PLAN

Plan Components

- Roles and Responsibilities
- Types of Emergencies / Levels of Response
- Critical Operations Plans
- Special Function Plans
- Building /Area Emergency Plans
- Communications Plan
- Response Protocols

EMERGENCY RESPONSE PLAN

Roles and Responsibilities
- College President and Provost
- Chair, Emergency Management Team
- Emergency Management Team
- Emergency Operations Team
- Emergency Response Plan Coordinator
- College Incident Commander
- Building / Area / College Emergency Coordinators
- Faculty and Staff
- Liaison to City of Williamsburg EOC

EMERGENCY RESPONSE PLAN

Appendices

- National Incident Management System (NIMS)

- Emergency Support Functions (ESFs)

- Organizational Unit Plan Elements

- Critical Operations Roles and Responsibilities

- Communication Plan

- Detailed Response Protocols

  - Held in the William & Mary Police Department
