2014 CAMPUS MASTER PLAN: BUILDING COMMUNITY BY TRANSFORMING PHYSICAL SPACE

Beginning in the fall of 2013, the College received campus mastering planning services with RRMM Architects, Inc. of Chesapeake, VA, and Vanasse Hangen Brustlin, Inc. (VHB), civil engineers and landscape architects to develop a new master plan for the College’s campus. RRMM is also designing the renovations currently underway on Ernst Hall and VHB has provided previous civil engineer services on campus.

The central goal of the new campus master plan focuses on building community by transforming RBC’s physical space from a commuter campus to a residential, pedestrian-friendly campus. Academic, athletic and residential activity is concentrated in the southwest and northwest quadrants to create a feeling of condensed activity and energy. Pedestrian corridors connect the academic quad to the athletic and residential quadrant. Traffic nodes on Johnson Road and Carson Drive are designed to slow traffic, and vehicles and parking are redirected to the periphery of the main campus. A trail system loops the campus, intersecting with sensitively created storm water management areas to focus on the natural beauty of RBC’s campus and to encourage engagement with the delineated wetlands and the pecan groves.

The new campus master plan reorients the main entrance of campus turning off Halifax Road and progressing to the center of campus along a pecan-lined Carson Drive. The northwest quadrant of campus focuses on athletics and residence halls, increasing housing occupancy to 700 students by 2019 and providing significantly diverse recreational opportunities from zip lines and a field house to a new track for the enjoyment of all members of the campus community.

Academic buildings are clustered in the southwest quadrant of campus. The College’s six-year capital plan submitted to the Commonwealth in the summer of 2013 includes, as its key new academic facility, an Academic Innovation and Resource Center to house the nexus of technology and information including the library; information technology, including cyber security, computer modeling, simulation, gaming and logistics; the Center for Strategic Initiatives, including, among others, support for Main Street Virtual Learning and the Language Institute; and a home for the technical and creative arts, such as film production, videography, and art design.

The Academic Innovation and Resource Center is intended to support existing academic programs by providing appropriate space and equipment for faculty to engage in research and development necessary to keep current courses up to date and relevant as the College seeks to improve learning outcomes through new pedagogies and learning technologies. After the Academic Innovation and Resource Center has been constructed, the current library is expected to be renovated to accommodate a “One-Stop Student Center” to better serve our students and their families. This service model includes in one location admissions, financial aid, student accounts, registrar, and
student support services. Linked physically to the Student Commons, it will create a full-service student center appropriately positioned in the midst of the academic, athletic and social spaces of our campus.

The new campus master plan calls for the east side of campus to “go green,” improving the health of our pecan groves in the northeast quadrant, providing a focus on environmental sustainability, and developing space for new programs in agri-business, equine therapy, and the like, perhaps in collaboration with other colleges and universities. This incredibly beautiful campus holds many opportunities for future growth and programming to align with the goals of RBC-19, our current strategic plan, and to build for the future.

At the February 2014 meeting, the Richard Bland College Committee of the William and Mary Board of Visitors were provided an in-depth presentation on the intentions of the new campus master plan by RRMM Architects, VHB, and Richard Bland College administrators to seek feedback to move forward with the plan. The new campus master plan has been shared with college constituents to include the Richard Bland College Foundation.

BE IT RESOLVED, That the Board of Visitors hereby endorses and adopts the new campus master plan, dated January 2014, and directs the College administration to oversee implementation and ensure compliance with the plan.
RICHARD BLAND COLLEGE
SACS FIFTH-YEAR INTERIM REPORT – AN EXECUTIVE SUMMARY

Through a rigorous review process, Richard Bland College has confirmed compliance with SACS-COC core requirements and comprehensive standards in the Fifth-Year Interim report. Standards require that the College demonstrate:

1. An **adequate number of full-time faculty** members to support the mission of the institution and to ensure the quality and integrity of each of its academic programs. This is an area of particular strength for RBC, as 83% of instruction is delivered by full-time faculty.

2. **Student support programs**, services, and activities are consistent with the mission, which was evidenced by the availability of tutoring and disability support services, counseling services, and co-curricular programs, as well as athletics, student clubs, and the new Honors program.

3. **Qualified administrative and academic officers**, demonstrated by listing the educational and experiential backgrounds of the senior leadership team.

4. **Student learning outcomes assessment** and provide evidence of improvement based on this assessment. In this centrally important section, RBC spent significant time showing how the strategic plan (RBC-19) and quality enhancement plan (QEP) have guided the current focus on devising and implementing a comprehensive academic assessment plan, including identified learning outcomes for every course and program. Though extensive evidence of curricular improvement was not available, a strong case for compliance based on use of the QEP to drive the new action plan in this area should suffice.

5. **Published admissions policies** that are consistent with mission. This short section simply documents that RBC has admissions policies, published online and in our catalog, that are mission-consistent.

6. **Academically qualified personnel who are responsible for program coordination** and curriculum development and review. In this section, lead academic faculty for each academic area as well as the chairmen of the two academic divisions are listed, and their academic credentials demonstrate their qualifications.

7. ** Appropriately operated and maintained physical facilities.** Here the physical plant and its utilization in support of the mission is described; facilities are sufficient at this time.
8. **Success with student achievement.** Evidence includes an increasing 3-year average retention rate (now 57%, which puts RBC on track to meet its goal of 63% by 2019) and increasing incoming GPAs and rates of student transfer, all of which indicate that 3-year average graduation rates are likely to increase as well.

9. **Appropriate curriculum** for the purpose and goals of the institution. *As the primary goal of Richard Bland College is “to prepare students for university transfer through academically rigorous programs grounded in the liberal arts tradition of William & Mary,” this section demonstrates that the curriculum has been designed to meet the requirements of our four-year partners—which is clearly demonstrated by the growing list of articulation agreements and transfer paths between RBC and other institutions in Virginia.*

10. Current **academic calendars, grading policies, and refund policies** available to students and the public. *All of RBC’s calendars and related policies are clearly advertised in the Catalog as well as the college website.*

11. **Appropriate program length** for each of the institution’s educational programs. *AA and AS degrees require 60 credit hours, which is appropriate for this degree level as well as conducive to transfer and student success.*

12. **Adequate procedures for addressing written student complaints.** *RBC has procedures for addressing student complaints of all types; these procedures are clearly identified in the Catalog and Student Handbook. In addition, College committees and relevant offices keep adequate files to demonstrate compliance with this standard.*

13. **Accurate recruitment materials** and presentations. *The RBC Quick Guide and other collateral materials used to recruit and advise students are accurate and up to date with current practices; representative admissions presentations likewise demonstrate the accuracy of recruitment practices.*

14. **Compliance with Title IV and audits of financial aid** programs as required. *RBC’s most recent OMB A-133 audit clearly demonstrates compliance with Title IV; the last external audit by the APA demonstrates compliance with financial aid programs.*

15. **Policies and procedures for distance education.** *RBC verifies the identity of its distance students with procedures considered acceptable by SACS; RBC also protects the privacy of distance students with procedures identical to those used with on-campus students.*
16. Policies and procedures for determining the credit hours awarded for courses. RBC's policy is closely modeled on the policy used at UVA: one credit approximates three hours of academic work per week for 15 weeks.

17. Comply with the policies of the Commission on Colleges. The totality of the report demonstrates compliance with the policies of SACSCOC.

As RBC was not required to file a follow-up report, the last section of the Interim Report consists of the QEP Impact Report. This report—referenced many times throughout the Interim Report—describes the projected learning outcomes of RBC 101, the College’s evaluation of RBC’s impact on student learning, the subsequent discontinuation of the course, and the lessons the institution learned from the experience.

Ernst Hall Renovation

The Bureau of Capital Outlay Management (BCOM) has released the funding. Due to time constraints during the summer, we moved forward with the Asbestos Abatement utilizing Southern Environmental Service as the contractor. They came in well under budget and did a quality job.

In June, in coordination with BCOM and RRMM we decided to pull out the demolition which is a major part of any renovation. We went out to bid and awarded the contract in July. The contractor had 45 days to complete all the demolition in Phase One. They completed the work in 37 days. Once again a quality job was done by the contractor which moved the project ahead.

On August 20th bids were due by General Contractors for the entire renovation. The bids came in under budget, mainly due to us subcontracting the asbestos and demolition out. The award letter was sent out on August 25th and Contract signed on September 10th; the contractor is Branch and Associates. They are a reputable contractor and are well aware of the 323 days and August 1, 2015 deadline in order to open for the fall 2015 start of school.

2012 Umbrella Maintenance Project

The Department of Planning and Budget (DPB) has approved an amended scope for the Umbrella Maintenance Project that aligns with RBC-19, the College’s strategic plan. The current list of sub-projects related to the Umbrella Project includes:

- 001 Replace Chiller at Statesman Hall.

  HDH and Associates have completed the drawing and all approval through BCOM. We are working together with Virginia Tech and Trane by utilizing a VASCUPP contract which in turn saved us time in bidding and gave us the best price possible. Work will begin on December 8, 2014 during winter break.

- 002 Construct a Consolidated Storage Building.

  We signed a contract with Enteros Design, an A/E contractor, on March 14, 2014. While original plans slated this facility to be placed on the outer portion of our athletic complex, a preliminary review from BCOM as well as new ADA requirements led to a required move of the planned facility. The storage facility will now be built next to Statesman Hall resulting in less expense associated with underground utilities and the combined use of existing parking and ADA. By doing this our façade needed to be change to match the rest of the college and bathrooms had to be incorporated. While the re-design has caused some delays, the final outcome meets the original needs. Currently, the plans are under review with BCOM.
o 003 Improve safety for individuals and security of campus through use of technology

Projects highly recommended in a recent safety assessment of the campus include investments on West Campus for surveillance cameras/monitors, communications equipment, proximity locks, key-card access hardware, lighting upgrades, etc.; training in proper use of new technologies to reduce safety risk to individuals and to improve security of facilities; refitting door access to accommodate controlled and monitored hardware/software; and connecting new systems to existing systems in Patriot and Freedom Halls. Access controls are already in place in the James B. McNeer Hall and will be built into Ernst Hall door hardware during the renovations already underway. Renovations to facilities for controlled access and to support internal and external safety proximate to Statesman Hall and Library/Student Commons, however, are essential to complete the safety profile of West Campus; and connection to a campus-wide access control system in support of personal safety and facility security remains a critical need.

Fall 2014 Update: We are 85% complete with the safety and security upgrades throughout campus. The one card system was deployed enabling access to building, food service payments, library facilities, and many other aspects all over campus. The system also provides automatic controls over the buildings safety and security.

o 004 Site and Utility Infrastructure Enhancements on the West Campus:

Evaluation phase to begin this fall

VA Department of Forestry

o Last fall the VA Department of Forestry created a Forestry Stewardship Plan for the College. Now the College is moving forward with the revitalization and improvement of the 700 acres of woodlands on the campus.

Update fall 2014: The Department of Forestry completed the bid process and was awarded the contract. The contractor now has between 12 to 18 months to complete the harvest.

Pecan Groves

o Eric Kondzielawa has completed his GAP certification and the USDA will perform an inspection once the harvesting begins.

o The groves have been fertilized and aerated.

o Joanne Williams, RBC Director of Communications, is working on the promotion of the pecan groves for this fall.

Custodial Outsourcing

o After careful review, we decided to continue with the in house staff given our ability to allow attrition be backfilled with part time workers to reduce the overall cost of this function.
Residence Halls

- Re-allocated personnel resources in order to establish an Assistant Director of Residence
- Hired 2 Resident Life Coordinators (graduate students)
- Created a clearer separation of female and male residents between our two residential buildings
- Moved the Safety and Security force into their sub office at the residence halls between the hours of 3PM to 6AM.
- Instituted a security tour system that the officers follow for better visibility and safety
- 10 Work Study students trained as police aides for normal working hours
RICHARD BLAND COLLEGE  
FACULTY REPRESENTATIVE REPORT

To: Richard Bland College Committee, William & Mary Board of Visitors  
From: Kevin Peters, Ph.D.  
Date: September 24, 2014  
RE: Faculty Representative Report

Below is the Richard Bland College faculty representative to the William and Mary Board of Visitors report for the September, 2014 meeting:

- There are currently 35 full-time faculty at RBC with approximately 2/3 (23 of 35) having terminal degrees (Ph.D., Ed.D., M.D., M.F.A.).

- Three full time faculty members are new to the College this semester -- Getnet Gidelew (Mathematics), Lisa Lindquist (English), and Matt Smith (Mathematics).

- The executive committee of the faculty senate has established the goals of the senate for the upcoming academic year:
  o clarify shared governance in terms of faculty expectations
  o evaluate programs of study
  o develop learning outcomes for all courses
  o expedite committee work

- There are more adjuncts on campus this fall as compared to last year with more than 30 part-time instructors this semester. Some of these faculty members are fulfilling multiple roles on campus (e.g. IT department and computer science instructor).

- One of our adjunct history professors, Daniel Tulli, was recently named a C-SPAN Senior Fellow for the upcoming semester. He was one of only two selected from the entire country.

- Faculty members continue to search out funding from grants that will allow for research opportunities across disciplines (Chemistry and Archaeology NSF grant) as well as include students when possible.

- Barbara Morgan’s equine therapy program has already garnered an award from Virginia Living.
- The faculty affairs committee supports the President’s recognition that, even with budget reductions mandated by the Commonwealth, the faculty salary initiative remains a high priority.

- The faculty affairs committee will also be focusing on work conditions (Faculty development and handbook) for the coming year.

- A chapter of AAUP (American Association of University Professors) has been established on campus.

STUDENT REPRESENTATIVE REPORT

RE: Student Representative Report

As the first month of school is coming to a close, it is hard to imagine already being well into the semester. All of the activities at Richard Bland make the time seem to fly by. Move-in day was a success and made the incoming freshman feel at home and excited about their future here at RBC. There is an exciting future for Richard Bland, and this year many ideas and goals will be brought to fruition by the combined effort of the staff, faculty and student body.

On August 20th, commuters joined the residential students to quickly fill up campus with returning and new students. As returning students, my sister and I woke up earlier than normal excited to see our old friends and favorite professors. At the same time, many new students, like my brother, were anxiously awaiting their first class and meeting their fellow students. There have been many activities to usher in the new school year with excitement and good spirits rather than stress that is sometimes related to a new semester. This great start to the school year is all due to the staff and organizations that maintained constant activities and an upbeat campus spirit during the first week of classes. On the first day, there was a booth with fresh watermelon as well as the newly renovated Statesman Grill. Throughout the commons and the academic buildings, there were so many club tables with plenty of opportunities to get involved with the campus and community as well as special interests clubs like the Creative Writing Club, Anime Club and Campus Ministries.

Along with classes beginning, so have collegiate sports. This year Richard Bland Statesmen Athletics includes 8 NJCAA sports teams as follows: men’s basketball, cross country, soccer and track & field as well as women’s cheer, cross country, softball and track & field. There are very high expectations for all of the sports teams based on their exceptional performance last year. The soccer team kicked off the season with two wins, which has been great, bringing in support from the whole student body. Along with the collegiate sports, there are many other great ways to stay active and participate in sports on campus. This fall, there are intramural football and intramural volleyball being offered as well as yoga and Zumba classes offered in the gym. These activities are loved by the whole student body.

Clubs and organizations have gone straight to recruitment as soon as classes began. There are numerous clubs and programs being offered this year by the students for the students. Almost every interest or field has a corresponding club with student governance and faculty advisement. New students are meeting fellow students with similar interests through this clubs and returning
students are getting more involved than ever. There are many big plans for each of these clubs and I know everyone is excited to see them develop and grow. Just a few of these clubs are the science club, the business club, the LGBT club, Ignite Campus Ministries, the film and anime club, the creative writing club, student assembly and many more.

The Honors Program is also up and running! With over 50 members this year, there are very high expectations for the students individually as well as collectively. As well as maintaining A’s and B’s in all of our classes, we are also expected to attend required meetings and lectures. We also have plans to give back to the community by participating in individual community service hours and creating teams within the honors program to raise money for a charity of our choice. We are also participating as a group by attending optional events and meetings.

Collectively, all of the components of school are coming together to create a very exciting atmosphere here at Richard Bland College. Involvement and participation within the school is very high as well as school organizations planning on reaching out to the community.

REVISIONS TO THE BYLAWS
OF THE FACULTY OF ARTS AND SCIENCES

Article III, Section 2 of the Board of Visitors Bylaws states that changes to any Bylaws of the respective faculties of the College “may be amended by the Board on its own motion or by Board approval of amendments suggested by the respective faculties and recommended by the appropriate President.”

The Faculty of Arts & Sciences passed the attached bylaws amendment regarding the formation of the new Committee on Faculty Awards, Professorships, and Prizes (CFAPP) at its May 6, 2014 meeting.

THEREFORE, BE IT RESOLVED, That upon recommendation of the President, the Board of Visitors of the College of William and Mary approves the following amendment to Article V of the Bylaws of the Faculty of Arts and Sciences, effective immediately.
PROPOSED AMENDMENT TO ARTS AND SCIENCES BY-LAWS
TO CREATE AN ARTS AND SCIENCES
COMMITTEE FOR FACULTY AWARDS, PRIZES, AND PROFESSORSHIPS
Submitted by the *ad hoc* Committee on Faculty Awards, Prizes and Professorships

To be added to Article V, Elected Committees of the Faculty:

Sec. 7.1. There shall be a Committee on Faculty Awards, Prizes and Professorships (CFAPP) consisting of six voting members from the Arts and Sciences faculty (two each from Areas I, II, and III). In addition, one ex officio representative from the Dean of the Faculty of Arts and Sciences Office will be selected by the Dean of the Faculty of Arts and Sciences to serve on the committee in an advisory role. Voting members of CFAPP will be elected and serve for three years, and must be tenured. Election will be staggered, with two members being elected each year.

Sec. 7.2. The CFAPP, in cooperation with the Dean of the Faculty, will review and suggest revisions to solicitations for awards, prizes, and professorships, and will suggest methods of advertising solicitations that reach as many faculty as possible. The CFAPP will monitor and review the procedures for solicitation, nomination, and selection of awards, prizes, and professorships, and it will recommend changes with the goal of improving efficiency, transparency, participation, and fairness.

Sec. 7.3. By September 1 each year, the Dean of the Faculty of Arts and Sciences Office should provide a list to CFAPP of all Arts and Sciences Faculty who have current awards, prizes, and professorships and are required to serve on review committees in the upcoming academic year. At the same time, the Dean's Office should provide a list to CFAPP of all likely awards, prizes, and professorship solicitations for the upcoming academic year. The CFAPP will then make recommendations to the Dean of the Faculty for review committee membership. Except for awards, prizes, and professorships with existing committee structures, at least one CFAPP faculty member will be part of each review committee for A&S eligible awards, prizes, and professorships.

Sec. 7.4. The Dean of the Faculty will make available to CFAPP an ongoing annual record of all nominees and awardees for all awards, prizes, and professorships. Using this record, the CFAPP will attempt to identify inequities in the nominations for, and selection and distribution of, awards, prizes, and professorships within Arts and Sciences, and make recommendations to the Dean of the Faculty to remedy these issues.

Sec. 7.5. The CFAPP will report once per year to the Faculty Affairs Committee and the Faculty of Arts and Sciences, including numbers of nominees; numbers of awards, professorships, and prizes; and names of faculty members to whom awards were given. The CFAPP will serve as a contact for A&S Faculty with compliments, concerns, and/or recommendations about the process of soliciting, nominating, and selecting awards, prizes, and professorships.

Sec. 7.6. CFAPP members are eligible for all awards, prizes, and professorships during their tenure on the committee. CFAPP members that hold awards, professorships, or prizes are exempt from the requirement of serving on review committees, as their service on CFAPP is considered to fulfill that requirement.
Article III, Section 2 of the Board of Visitors Bylaws states that changes to any bylaws of the respective faculties of the College "may be amended by the Board on its own motion or by Board approval of amendments suggested by the respective faculties and recommended by the appropriate President."

It is proposed that currently defined "areas" in the School of Education's bylaws be renamed "departments" in order to make the school's organizational structure clearer; to allow greater flexibility in hiring colleagues on sponsored projects; and to provide more revenue generated by sponsored projects directly to the relevant department.

The Dean of the School of Education discussed making this change to the wording in the bylaws with the Faculty Executive Committee before bringing a motion to the entire faculty. The revisions were approved at the February 12, 2014 faculty meeting.

THEREFORE, BE IT RESOLVED, That upon recommendation of the President, the Board of Visitors of the College of William and Mary approves the following revisions to the bylaws of the School of Education, effective immediately.

Committee on Audit and Compliance

Board Conference Room—Blow Memorial Hall

Attendees: John Charles Thomas, Chair; Leigh A. Pence, Vice Chair; Ann Green Baise; Edward L. Flippen; and John E. Littel. Others present: Board member Sue H. Gerdelman; John E. Donaldson, Kiersten L. Boyce, Samuel E. Jones, Anna B. Martin, Michael R. Halleran, Deborah A. Love, Sarah E. Melechior, Joe Martinez, Chandragupta Gudena, Annette Parker, LaToya Jordan, Brad Hypes, Logan Davis, Virginia M. Ambler, John E. Wells, Jennifer B. Latour, Brian W. Whitson, Bert Brummer, Greg Swindell, Suzanne Rait, Pamela Mason and other College and VIMS staff.

Chair John Charles Thomas called the meeting to order at 8:00 a.m. and briefly reviewed the agenda.

Recognizing that a quorum was present, Mr. Thomas asked for a motion to approve the minutes of the meeting of February 6, 2014. Motion was made by Mr. Littel, seconded by Ms. Baise and approved by a voice vote.

Mr. Thomas introduced LaToya Jordan from the Auditor of Public Accounts (APA), to the Committee. Ms. Jordan, Project Manager for the audit presented an interim report on the status of the FY13 audit, and, reported that the audit was not complete because of the delays attributable to inclement weather, new auditing standards, and an expanded scope of the audit. She plans to present the official report no later than mid-May. She noted that the auditors have encountered no issues resulting in modification of their financial statement opinion, no issues rising to the level of material weakness, no instances of non-compliance requiring reporting and no indication of fraudulent transactions or illegal acts.

Ms. Jordan and her colleagues, Brad Hypes and Logan Davis, reviewed recent memoranda addressed to particular officers relating to (1) improving the employee termination process at W&M, (2) improving controls over voucher processing at W&M, (3) improving eVa (electronic procurement system) security management at W&M, (4) improving the information security program at Richard Bland and (5) improving web application security at Richard Bland. They acknowledged having agreed to the College’s request that procedures for notifications and responses to particular issues at William & Mary and Richard Bland be made specific to the particular institution and office.

Ms. Jordan provided an estimate for the change in pension standards by the Commonwealth that will have an impact on FY 2015. Their estimated figures show an increased liability of $95.8M for the College of William & Mary, $8.4M for Richard Bland College, $23.6M for VIMS, totaling an impact of $127.8M. A brief discussion ensued.
Mr. Thomas asked Chief Compliance Officer Kiersten Boyce for her report. Ms. Boyce reminded the Committee of the Violence Against Women Re-Authorization Act and briefed the Committee on developments in negotiated rule-making relative to the Campus SaVE Act, which is a part of the Violence Against Women Act. Ms. Boyce explained that final rules are expected from the Department of Education by November, 2014. The changes that impact the College are in three main areas: training/education/awareness for both students and employees; policies and procedures and ensuring fair and prompt resolution; and annual reporting requirements in the Campus Safety report that incorporate new categories of crimes, like dating violence and stalking. A brief discussion ensued.

Mr. Thomas asked Interim Director of Internal Audit John Donaldson for his report. Mr. Donaldson noted that the report on the audit of the William & Mary President’s discretionary fund had been concluded and circulated. He discussed the status of audit projects related to compliance with the Fair Labor Standards Act, establishing revised rental rates for VIMS vessels used in grant-funded activities, operations of the Omohundro Institute of Early American History and Culture and the Muscarelle Museum.

Mr. Donaldson reported that there have been no hotline calls.

Mr. Donaldson reviewed recently enacted legislation (1) broadening the scope of performance reviews to be conducted by the Office of the State Inspector General to include a focus on efficiency and economy of programs and (2) broadening exemptions under the Freedom of Information Act (FOIA) to include certain records and information provided to or prepared by or for internal auditors of public colleges and universities.

Finally, Mr. Donaldson reported on a recent roundtable meeting of internal auditors of state agencies and institutions sponsored by the Office of the Inspector General. The Inspector General informed them that his office’s performance reviews of all state agencies are getting underway. All agencies have been rated for risk assessment. William & Mary was rated a “moderate” risk. We are 24th on list of 32 and we will be required to undergo three year rotational audits. Mr. Donaldson stated his understanding that these once every third year audits would not be comprehensive but instead would have a focus on selected functions. Mr. Donaldson also informed the committee that a peer review component may be used in the audits. Ms. Pence inquired about the safeguarding of proprietary information. Mr. Donaldson said that no detail had been provided on that issue.

Mr. Thomas asked Vice President for Administration Anna Martin for her report. Ms. Martin used a PowerPoint presentation to discuss the conclusions from the Multi-Campus Hazard Mitigation Plan relative to natural disasters. FEMA has approved the plan. This will allow the College to pursue grant funding to assist in implementing the plan. One of the high priority actions resulting from the plan is identification of a site for the new Emergency Operation Center (EOC). Blow Hall has been selected. A proposal is currently being prepared to obtain grant funding to purchase a generator to power the entire building. A brief discussion ensued.
Mr. Thomas moved that the Committee on Audit and Compliance of the Board of Visitors of the College of William and Mary convene in closed session for the purpose of discussing specific personnel matters and matters regarding the consideration of candidates for employment, and matters that would involve the disclosure of information contained in a scholastic record concerning a student of a Virginia public institution of higher education, as provided for in Section 2.2-3711.A.1 and 2., of the Code of Virginia. Motion was seconded by Mr. Flippen and approved by voice vote of the Committee. Observers were asked to leave the room and the Committee went into closed session at 8:44 a.m.

The Committee reconvened in open session at 9:28 a.m. Mr. Thomas reviewed the topics discussed in closed session and moved the adoption of the Resolution certifying that the closed session was held in accordance with the Freedom of Information Act. Motion was seconded by Ms. Pence and approved by roll call vote conducted by Executive Assistant to the Board Sandra Wilms (Certification Resolution is appended).

There being no further business, the Committee adjourned at 9:28 a.m.
CERTIFICATION OF CLOSED SESSION

WHEREAS, the Board of Visitors Committee on Audit and Compliance has convened a closed session on this date pursuant to an affirmative recorded vote and in accordance with the provisions of The Virginia Freedom of Information Act; and

WHEREAS, §2.2-3712.D. of the Code of Virginia requires a certification by this Committee that such closed session was conducted in conformity with Virginia law;

NOW, THEREFORE, BE IT RESOLVED, That the Committee on Audit and Compliance, reconvening in open session, hereby certifies that, to the best of each member’s knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia law were discussed in the closed session to which this certification applies, and (ii) only such public business matters as were identified in the motion convening the closed session were heard, discussed or considered by the Committee on Audit.

Committee on Administration, Buildings and Grounds
April 24, 2014
Board Conference Room – Blow Memorial Hall

Attendees: Ann Green Baise, Chair; John Charles Thomas, Vice Chair; L. Clifford Schroeder, Sr., DeRonada M. Short and H. Thomas Watkins III. Board members present: Leigh A. Pence and faculty representative Will Hausman. Others present: Dean John T. Wells, Vice President Anna B. Martin, Vice President Virginia M. Ambler, University Counsel Deborah A. Love, Chief Information Officer Courtney Carpenter, Athletic Director Terry Driscoll, and other College and VIMS staff.

Chair Ann Green Baise called the meeting to order at 9:30 am. Recognizing that a quorum was present, Ms. Baise requested a motion to approve the minutes of the February 7, 2014, meeting of the Committee on Administration, Buildings and Grounds. The motion was made by Mr. Thomas, seconded by Mr. Watkins, and approved by voice vote of the Committee.

The Committee had no questions regarding the Building Code Official’s written report, as detailed in Enclosure G.

Dean John Wells gave highlights from VIMS written report, as detailed in Enclosure H. The design for the new research vessel that will replace the aging Bay Eagle has been selected; however the cost has increased. VIMS sought and was granted in the Commonwealth’s “caboose” bill (amended budget bill for current fiscal year) an additional $2.0M for the project from the 2014 General Assembly.

Dean Wells also reported that consultants will complete schematics on the new 32,000 SF Consolidated Scientific Research Building in time for a June review by the College’s Design Review Board (DRB). Construction Management (CM) at risk will be the construction contractor procurement method. Finally, a preplanning study for a new 15,000 SF Facilities Management building is also underway.

Using an aerial view of the VIMS campus, Dean Wells showed the committee how the placement of new buildings, along with shifting certain activities and functions will improve the utilization of campus real estate. Managing or mitigating the flood zones is also a constant concern. Dean Wells reminded the committee that a public road passes through the heart of campus to allow public access to a boat launch and beach owned by Gloucester County.

Vice President Anna Martin gave a brief report on Administration activities, highlighting ongoing staff searches for an Associate Vice President for Human Resources, an Associate Vice President for Facilities Management, and a Police Chief. The candidate pools for all three positions have been strong.

Ms. Martin reported on the revitalization of Procurement policy, and the rollout to, and training of, over 300 staff in the new policies and procedures, including the decentralization of signature authority, and improved utilization of the small purchase charge card, which is designed to
achieve cost savings. Ms. Martin advised the Committee that savings resulting from increased card use had not been offset by any additional cost in audit or monthly oversight.

Ms. Martin introduced Bill Horacio, Director of Parking & Transportation, and students Gabriel Morey and Brianna Buch. They have been the primary advocates behind an initiative to make the campus more bike-friendly. Ms. Martin presented the initiative’s goals, and reviewed the three phases designed to improve the bike experience on campus. Biking program enhancements will include fix-it stations, additional racks, trails, and spare part vending machines. The Committee asked questions about risk and promotion of “good cycling.” The College encourages bike registration and use of helmets. Ms. Martin shared the design of the new W&M bike jersey and program branding. The program will feature bike ambassadors and advocates, and foster a lively web presence. Mr. Morey and Ms. Buch stated that the College will eventually seek national accreditation as “bike friendly”.

Ms. Martin reported briefly from the College’s written capital outlay report, as detailed in Enclosure I. No new capital projects were funded by the 2014 General Assembly. However, the Integrated Science Center 3 (ISC 3) will break ground in May 2014, and thirty-five small projects are scheduled to occur over summer 2014.

Ms. Martin introduced Patrick Foley ’12, the Committee on Sustainability (COS) fellow, who presented the annual report on sustainability efforts at the College. Mr. Foley reviewed for the Committee COS’s history, structure and tasks accomplished to date. He also reviewed the proposal process, current programs, and a breakdown of “Green Fee” utilization. Through a variety of staff-supported initiatives and efforts, the emissions per person is dropping, reducing the College’s overall carbon footprint.

At the request of the president, Ms. Martin presented HANDOUT Resolution 47, Resolution to Approve Capital Project: Renovate Zable Stadium. Ms. Baise requested a motion to approve the resolution. Motion was made by Mr. Thomas, seconded by Mr. Schroeder, and approved by voice vote of the Committee (Resolution 47 is appended).

For the September meeting, Ms. Baise requested an update on the sale of surplus properties.

The reports completed, and there being no further business, the Committee moved to adjourn at 10:20 a.m.
COLLEGE OF WILLIAM AND MARY

Whereas, the College’s Board of Visitors may authorize a new non-general fund capital project regardless of the Commonwealth’s biennial calendar and process; and

Whereas, the College seeks Board authorization to create a non-general fund capital project for the renovation and improvement of Zable Stadium to address significant facility deficiencies;

THEREFORE, BE IT RESOLVED, That the Board of Visitors of The College of William and Mary in Virginia approves the creation of capital project 204-90005, Renovate Zable Stadium.

204 – 18003  Improve: Lake Matoaka Dam Spillway
Design Team: Draper Aden  Biennium: 2012-2014
Budget: $3,169,182  Contractor: TBD
Funding Source: VCBA  Obligated to date: $270,892

Description: State Dam Safety Regulations now require that the spillways of all high hazard dams must pass 90% of the probable maximum flood (PMF) and/or withstand overtopping by just under 7".

Progress: The Department of Environmental Quality (DEQ) Division of Dam Safety has approved the use of Roller Compacted Concrete (RCC) on the downstream face of the dam to meet the new spillway requirement. This method is expensive and will require additional state funds – approximately $2.4M. Completion of design and construction is contingent upon completion of a General Assembly-directed evaluation of the probable maximum precipitation (PMP) standard on which the design-to flood levels are based. (There are over 30 high hazard dams across the state that are affected by PMP standard.) The legislature has directed DEQ to complete the evaluation NLT than December, 2014. Design will resume following state guidance, and can be completed within six months. A summer 2015 start of construction is possible.

204 – 18004  Improve: Campus Stormwater Infrastructure

Budget: $3,391,198  Contractor: TBD
Funding Source: VCBA  Obligated to date: $254,902

Description: The College will create a new Stormwater Management Plan to achieve compliance with new state stormwater regulations and emerging federal Total Maximum Daily Limit (TMDL) pollutant guidelines for the protection of the Chesapeake Bay.
Planning will include inventory of existing stormwater structures, determination of existing stormwater flow and associated contaminant loadings; and the identification, prioritization and sequencing of projects required to achieve regulatory compliance. The College must achieve a 5% contaminant reduction during 2013 – 2018, 40% during 2019 – 2024 and 100% during 2025 – 2030.

Progress: The study has determined contaminant reduction requirements based upon existing conditions, planned campus growth and evolving state standards. The evaluation phase is complete resulting in an initial identification, prioritization, sequencing, and pricing of compliance projects capable of satisfying regulatory requirements. This analysis, strategy development, and project identification has been codified in a draft Campus Stormwater Management Plan. The draft plan is being reviewed for accuracy, comprehensiveness and compliance. The plan will be finalized before the end of the calendar year in order to support design and construction of selected projects in 2015.

Vice Chair John Littel convened the meeting at 9:52 a.m. Recognizing that a quorum was present, Mr. Littel requested a motion to approve the minutes of the February 7, 2014. Motion was made by Mr. Flippen, seconded by Mr. Banks and approved by voice vote of the Committee.

Vice President for Finance Samuel E. Jones reported that due to a stalemate regarding the Medicaid issue, the General Assembly had not yet approved the State biennial operating budget for 2014-16. As a result, the College’s FY 2015 budget reflects anticipated actions of the General Assembly and assumes approval of the State budget by the Governor prior to July 1, 2014. Estimated State appropriation for the College provides approximately $42.8 million, an increase of 5.29% from FY 2014. The College continues to support the funding priorities as outlined in the Six-Year and Strategic Plans approved by the Board of Visitors. The FY 2015 budget includes approximately $1.4 million in reallocations supporting 10.8% of all new expenditures. The William and Mary Promise, in its second year of implementation, provides predictability and affordability for in-state undergraduates with a 4-year tuition guarantee for entering students. Tuition for continuing undergraduates (pre-Promise) will increase by $213 (2.4 percent) Out of state undergraduate tuition will increase by $1316 (4 percent), while increases for graduate and professional students range from $160 to $1060.

Mr. Littel then asked for a motion to approve the following resolutions as a block: Resolution 39, FY 2014-15 Operating Budget for Educational and General Programs; Resolution 40, FY 2014-15 Tuition and Fee Structure for Full- and Part-time Students; Resolution 41, FY 2014-15 Auxiliary Enterprise Operating Budgets; Resolution 42, FY 2014-15 Sponsored Programs Operating Budget; Resolution 43, FY 2014-15 State Appropriated Student Financial Assistance; Resolution 44, FY 2014-15 Applied Music Fee; and Resolution 45, FY 2014-15 Board of Visitors Private Funds Budget. Motion was made by Mr. Flippen, seconded by Mr. Watkins, and approved by voice vote of the Committee.

Virginia Institute of Marine Science Dean/Director John Wells reviewed the proposed FY 2015 budget for VIMS, highlighting the funding priorities for the Institute. Mr. Littel requested a
motion to approve **Resolution 46**, FY 2014-15 Operating Budget. Motion was made by Mr. Scott, seconded by Mr. Banks and approved by voice vote of the Committee.

The College’s investment consultant, Joseph Montgomery of Wells Fargo Advisors, was asked to report on the performance of the College’s endowment portfolio. The total value of the Board of Visitors’ assets, as of March 31, 2014, was $79.6 million. Since 2002, the portfolio has had an investment gain of $46.7 million.

Following brief discussion, and there being no further business, the Committee adjourned at 11:04 a.m.

COLLEGE OF WILLIAM AND MARY

2014 DEBT MANAGEMENT REPORT

The College of William and Mary Debt Management Policy was established to address all forms of long-term debt including fixed and variable rate options for capital construction projects and capital leases. Key objectives of the policy include the following:

- To provide guidance to the College in undertaking long-term debt obligations benefiting the College;
- To provide a structured framework for the issuance of long-term debt;
- To provide an on-going process for the College to evaluate the level of its annual debt service and consolidated debt burden; and
- To document the exercise of due diligence in the execution and/or management of the College debt portfolio and use of its financial resources.

The Debt Management Policy is applicable to the College of William and Mary, the Virginia Institute of Marine Science, and Richard Bland College.

Background

To date, the College of William and Mary has issued none of its own debt but rather had debt issued on its behalf by the Commonwealth of Virginia. While the College remains responsible for principal and interest associated with this debt, this approach allows the College to minimize issuance costs and take advantage of the Commonwealth’s strong credit position.

Long-term debt is used primarily to support the construction or renovation of major auxiliary facilities including residence halls, university centers and dining facilities, parking improvements, and recreational and athletic facilities. College supported debt service for academic facilities has been used to provide supplemental funding for projects receiving significant support from the Commonwealth or for projects where significant private support is available. The typical debt vehicle is a 20 years, fixed rate 9(e) or 9(d) bond issued by the Commonwealth of Virginia. Over the course of the bond period, the Treasurer of Virginia may refinance projects to take advantage of cost saving opportunities.

Standard and Poor’s Bond Rating

The College was required to be rated by one of the major credit rating firms as part of its application for Tier 3 status under the higher education restructuring act. The Act required that institutions have at least an “AA-” credit rating for consideration as a Tier 3 institution. In July, 2014, Standard and Poor’s reaffirmed its “AA” issuer credit rating for the College citing its strong student quality and demand, consistent break-even financial performance, and solid fund raising and endowment.
Current Debt Position—As of June 30, 2014, outstanding long-term debt totaled $238.6 million consisting of $69.8 million in 9(c) bonds and $168.8 million in 9(d) bonds (see Appendix A). Section 9(c) bonds are general obligation bonds issued by the Commonwealth on behalf of the College pursuant to Section 9 of Article X of the Constitution of Virginia. As such, while the College is responsible for repayment, these bonds are backed by the full faith and credit of the Commonwealth. Section 9(d) bonds are issued through the Virginia College Building Authority’s Pooled Bond Program and backed by the general revenue pledge of the College. As debt is issued, the College’s fee structure is adjusted to generate the funds necessary to support any new debt issuance or, in certain cases, private funds to support the necessary debt service are identified consistent with the requirements of the Debt Management Policy.

Richard Bland College (RBC) has entered into a thirty year capital lease with Richard Bland College Foundation (RBCF) for the provision of a student housing complex with two dormitories on the RBC campus. RBC has accounted for the acquisition of the complex and its furniture and equipment as a capital lease, and therefore has recorded the facility and furnishings as depreciable capital assets and has also recorded a corresponding lease liability in long-term debt on the Statement of Net Assets. The outstanding balance of this capital lease as of June 30, 2014 is $23,044,326. RBC also recognized other long-term debt through the agreement with the RBCF for non-capitalized expenses. The outstanding balance of this other debt as of June 30, 2014 is $811,731.

Installment Purchases - consist of long-term obligations resulting from various contracts used to finance energy performance contracts and the acquisition of equipment. The length of purchase agreements range from two to fifteen years, and the interest rate charges are from 1.3 to 4.7 percent. The outstanding balance of installment purchases as of June 30, 2014 is $4,402,664 (Appendix B).

FY 2015 Debt Issues – Additional debt totaling $4.3M will be issued in Winter/Spring, 2015 against authorization received July 1, 2014 for 9c revenue debt. Projects supported with this debt issuance include renovation of One Tribe Place, and renovation/replacements to House 5 (Sorority Court). The College’s FY 15 fee structure as approved by the Board of Visitors in April, 2014, includes support for these projects.

Variable Rate Debt—The College currently has no outstanding variable rate debt.

Annual Debt Service Cost as Percentage of Total Operating Expense—The Debt Management Policy stipulates that maximum annual debt service cost as a percentage of total operating expense shall not exceed 10% and that debt issued in any given year shall be limited to an amount that allows the debt service to total operating expense ratio to remain at or below the 10% maximum. Information regarding this ratio follows:

(c) The FY 2015 and 2016 ratios reflect an estimate for debt service and two percent annual growth in operating expense above FY 2014 levels.

The debt service ratio has remained reasonably stable over the past few years and as projected for FY 2015 and 2016 even while new debt is being issued. This is attributable to new debt being issued at an overall lower interest rate, systematic refunding of existing debt by the Commonwealth for lower interest rates and a steady increase in operating expenditures.

**Debt Service authorized by the Board of Visitors and the Commonwealth but not yet issued**—Debt supported capital project previously authorized by the Board of Visitors and the Commonwealth for which the College has not yet requested that debt be issued includes the following:

Statistics support the month of May as signaling the beginning of slower market activity, but that did not hold true this year as the S&P 500 and Dow Jones Industrial Average each reached new highs during the quarter. According to FactSet, 75% of S&P 500 companies reported results that surpassed consensus estimates. Improvements in retail sales and industrial production supported stronger markets early in the quarter, and improvements in the housing market and manufacturing activity at the mid-point were encouraging. Better-than-expected economic data reported in June kept the momentum up until the markets were finally slowed by valuation concerns and second thoughts about revised first-quarter GDP numbers.

Early economic projections indicated the recovery in Europe remained weak, but continued to show signs of improvement. Mid-quarter numbers showed that manufacturing had actually expanded more than expected. The markets responded positively, but investor confidence did not. After months of dovish statements, European Central Bank (ECB) President Mario Draghi took the unprecedented action of cutting interest rates paid to banks for deposits to below zero by lowering its deposit rate to -0.10%. The ECB also cut its benchmark lending rate from 0.25% to 0.15%.

Asian markets made a decisive move upward during the second quarter. Weak manufacturing data from China early in the quarter was more than offset by stronger manufacturing late in the period. The MSCI Asia-Pacific Index was up an impressive 7.4% for the quarter. Optimism spread to Japan after Prime Minister Shinzo Abe reaffirmed policy actions to boost growth and end deflation.

Emerging markets led the developed markets this quarter. The MSCI Emerging Markets Index increased for the fifth straight month and ended the quarter up 6.7%. It was the largest quarterly gain for the index in 2 years as investors look for better return opportunities.

Geopolitical concerns in the Middle East and Ukraine drove U.S. Treasury prices higher and yields lower early in the quarter. The overall risk aversion strategy continued through the end of the quarter. The yield on the benchmark 10-year note finished June at 2.54%, down 52 basis points from the start of the year. Gains also extended to riskier debt instruments as investors sought higher yields in the continued low interest rate environment.
I. Executive Summary

Observations & Recommendations

**Total Portfolio:** The William & Mary Board of Visitors (BOV) Endowment gained 2.3% for the quarter, trailing the target benchmark’s gain of 3.4%. For fiscal year 2014, the portfolio gained 15.8% (net of fees) which outpaced the benchmark by 30 basis points.

**Domestic Equity:** Blackrock’s Large Cap Value portfolio posted a gain of 2.4% for the quarter and 22.9% for the fiscal year. The quarterly return trailed the benchmark by 2.7% and the fiscal year return trailed by 80 basis points. The portfolio’s underweight to energy and overweight to financials was negative attributes to relative results. The position in Bank of America (3.5% of total) was the largest drag on performance given the stock losing 23% for the quarter. On a positive note, Suncor Energy and Halliburton were among the portfolio’s top performers.

Goldman Sachs’ Large Cap Growth portfolio posted a gain of 3.0% compared to 5.2% for the S&P 500 and the portfolio’s 23.4% fiscal year gain trailed the S&P 500 by 1.2%. Selection in the portfolio’s technology sector negatively impacted relative performance.

The Wells Fargo Advantage Discovery Fund (Mid Cap Growth) gained 0.3% for the quarter, trailing the benchmark by 4.1%. Stock selection in consumer staples, financials, and information technology detracted from returns while natural and organic food holdings led to a performance shortfall in the consumer staples sector. Stock selection in financials weighed on relative results, particularly in the insurance, banks, and diversified financial services industries. The team has identified growth potential in the auto space based on the age of the fleet in the U.S. This macro call led to an investment in Lithia Motors which is an auto dealership in the specialty retail industry. This was the best performing stock in the portfolio.

Artisan Midcap Value gained 2.8% for the quarter but lagged the Russell Midcap Value index which gained 5.6%. The relative underperformance was largely attributed to holdings in consumer discretionary and technology. In consumer discretionary, Coach and Bed, Bath & Beyond continued to experience selling pressure from first quarter into the second quarter. NeuStar and Teradata were key underperformers in the technology sector. Conversely, energy was a source of strong gains for the portfolio. Exploration and production companies SM Energy, Hess, and Denbury Resources were among the top performers in the quarter.

International Equity: The Dodge & Cox International Fund gained 5.0% for the quarter, beating the MSCI EAFE’s gain of 4.3%. Each sector in the MSCI EAFE generated positive returns for the quarter and Japan was the best performing country/region. As the Ukraine/Russia crisis escalates, fears of higher oil prices escalated. As such, energy was the best performer for the portfolio. Weatherford International (+32%), Schlumberger (+21%) and Petrobas (+19%) were notable contributors. Holdings in emerging market financials also helped performance, including Sabanci Holding, Yapi Kredi, and ICICI Bank. The financial names have helped throughout the year and are key contributors to the fund’s 7.9% gain for the six months ending June 30, 2014 (vs. 4.8% for the EAFE).

Thornburg International Growth returned 1.5% for the quarter while the MSCI EAFE gained 4.3%. Contributing to the shortfall were holdings in ASOS, F@N Communications, Rightmove, Bravofly Rumbo Group and OzForex Group. Growth stocks also continued to drag performance. Thornburg had professional turnover this quarter as the team trimmed a number of richly valued positions, some repeatedly, and exited more than a dozen names completely.

Domestic Fixed Income: The PIMCO Total Return Fund posted a gain of 2.4% for the quarter versus the Barclays U.S. Aggregate’s return of 2.0%. Most of the sectors that trade at a spread to U.S. Treasurys outperformed amid a return of risk appetite and an easing of global political risks. Tactical exposures to Italian and Spanish debt were additive along with exposures to local rates in Mexico and Brazil as rates declined. On the negative front, an underweight to the long end of the U.S. yield curve and Agency MBS hindered performance.

The Pioneer Strategic Income Fund posted a quarterly gain of 2.3%, outpacing the Barclays U.S. Aggregate by 30 basis points. Sector allocation, the portfolio’s relative lower quality, and security selection aided performance. The portfolio was 25% underweight to U.S. Treasurys which helped along with the 4% allocation to convertibles and 9% to bank loans. The lower relative quality within financials and industrials benefited the fund’s performance. Strong security selection within industrial and agency MBS contributed positively. The duration positioning shorter than the benchmark detracted from relative performance as rates declined.
The **Dodge & Cox Income fund** posted a gain of 2.2% for the quarter, 20 basis points ahead of the Barclays U.S. Aggregate Index. Security selection was a positive contributor as many corporate bonds performed well (Enel, Pemex, Petrobras, Royal Bank of Scotland, and Telecom Italia). The fund’s overweight to corporate bonds was also beneficial (43% weight versus 23%). Taxable municipal holdings performed well, especially the State of California general obligation bonds. The fund’s defensive duration (shorter than the benchmark) and Agency MBS holdings hurt relative performance.

**International Fixed Income:** The **GMO Global Bond Strategy** gained 3.1% for the quarter, outpacing the benchmark’s gain of 2.3%. Exposure to asset-backed securities held indirectly through the GMO Debt Opportunities Fund and the GMO World Opportunity Overlay Fund contributed positively during the recent quarter. Within these funds, market consumer asset-backed spreads were flat to tighter across sectors. Underweight positions to Japan, Switzerland, and the U.K. detracted from results.

The **GMO Emerging Country Debt Strategy** posted a gain of 7.7% for the quarter and an impressive 17.0% for the fiscal year. The biggest gains for the quarter came from Venezuela, Zambia, and Argentina. Venezuela continues to benefit from the elevated oil prices and experienced a change in the upper echelons of the economic policy team. Zambia sought policy advice from the IMF which resulted in a significant bond rally. After a Supreme Court ruling, Argentina has been precluded from issuing new bonds in the international market to refinance maturities coming due which added some predictability to holdout bondholders. The worst relative performers were Angola, Belize, Slovak Republic, and Vietnam though all four posted positive gains for the quarter.

**Alternatives:** The **Combined Alternatives** posted a gain of 0.8% for the three months ending May 31, 2014. **Aurora Diversified** struggled for the three months, losing 80 basis points as did **ABS Global Long/Short** (-1.6%) and **Graham Managed Futures** (-2.1%). Other managed futures strategies **BlueTrend** and **Legends** made a positive recovery despite the benchmark posting a loss of 2.5%. Commodities as a whole performed well though the Gresham Commodities fund eked out a modest gain of only 30 basis points.

FIRM: Wells Fargo Advisors is the trade name used by two separate registered broker-dealers: Wells Fargo Advisors, LLC., and Wells Fargo Financial Network, LLC, Members SIPC, non-bank affiliates of Wells Fargo & Company. CONFLICTS OF INTEREST: To review important information about certain relationships and potential conflicts of interest that may exist between Wells Fargo Advisors, its affiliates, and the companies that are mentioned in this report, please visit the our research disclosure page at https://www.wellsfargoadvisors.com/disclosures/research.htm or call your Financial Advisor.

STATEMENT OF OPINION: This and/or the accompanying information was prepared by or obtained from sources which Wells Fargo Advisors believes to be reliable but does not guarantee its accuracy. Any opinions expressed or implied herein are not necessarily the same as those of Wells Fargo Advisors or its affiliates and are subject to change without notice. The report herein is not a complete analysis of every material fact in respect to any company, industry or security. Any market prices are only indications of market values and are subject to change. The material has been prepared or is distributed solely for information purposes and is not a solicitation or an offer to buy any security or instrument or to participate in any trading strategy. Additional information is available upon request.

ASSET CLASS SUITABILITY: Stocks of small companies are typically more volatile than stocks of larger companies. They often involve higher risks because they may lack the management expertise, financial resources, product diversification and competitive strengths to endure adverse economic conditions. High-yield, non-investment grade bonds are only suitable for aggressive investors willing to take greater risks, which could result in loss of principal and interest payments. Global/International investing involves risks not typically associated with US investing, including currency fluctuations, political instability, uncertain economic conditions and different accounting standards. Because the futures and commodity markets can be highly unpredictable—often swinging dramatically—investing in currency and commodities is not suitable for all investors. You may lose your entire investment, and in some cases, more than you invested.

PAST PERFORMANCE: Past performance is not an indication of future results.

THE OPTIMAL SERVICE GROUP

Dow Jones Industrial Average - This index is comprised of 30 "blue-chip" US stocks selected for their history of successful growth and wide interest among investors. The DJIA represents about 20% of the total market value of all US stocks and about 25% of the NYSE market capitalization. It is a price-weighted arithmetic average, with the divisor adjusted to reflect stock splits and the occasional stock switches in the index.

NASDAQ Composite - A cap-weighted index comprised of all common stocks that are listed on the NASDAQ Stock Market (National Association of Securities Dealers Automated Quotation system).

S&P 500 - A broad-based measurement of changes in stock market conditions based on the average performance of 500 widely held common stocks. This index does not contain the 500 largest companies nor the most expensive stocks traded in the U.S. While many of the stocks are among the largest, this index also includes many relatively small companies. This index consists of approximately 380 industrial, 40 utility, 10 transportation and 70 financial companies listed on U.S. market exchanges. It is a capitalization-weighted index (stock price times number of shares outstanding), calculated on a total return basis with dividends reinvested.

Russell 1000 - The 1000 largest companies in the Russell 3000 index, based on market capitalization.

Russell 1000 Growth - A segment of the Russell 1000 with a greater-than-average growth orientation. Companies in this index have higher price-to-book and price-earnings ratios, lower dividend yields and higher forecasted growth values than the Russell 1000 Value index.

Russell 1000 Value - Represents a segment of the Russell 1000 with a less-than-average growth orientation. Companies in this index have low price-to-book and price-earnings ratios, higher dividend yields and lower forecasted growth values than the Russell 1000 Growth Index.

Russell 2500 - The index consisting of the bottom 500 stocks in the Russell 1000 (as ranked by market capitalization) and all of the stocks in the Russell 2000. This index is intended to be used as a measure of small to medium/small stock performance, and it represents over 22% of the Russell 3000 total market cap.

MSCI EAFE - A market capitalization-weighted index representing all of the MSCI developed markets outside North America. It comprises 20 of the 22 countries in the MSCI World. These 20 countries include the 14 European countries in the MSCI Europe and the 6 Pacific countries in the MSCI Pacific. This index is created by aggregating the 20 different country indexes, all of which are created separately.

MSCI World - This market capitalization-weighted index represents all 22 of the MSCI developed markets in the world. It is created by aggregating the 22 different country indexes, all of which are created separately.

MSCI Emerging Markets Free (EMF) - A market capitalization-weighted index representing 26 of the emerging markets in the world. Several factors are used to designate whether a country is considered to be emerging vs. developed, the most common of which is Gross Domestic Product Per Capita. The "Free" aspect indicates that this index includes only securities that are allowed to be purchased by global investors. This index is created by aggregating the 26 different country indexes, all of which are created separately.

Barclays Government/Credit - This index includes all bonds that are in the Barclays Capital Government Bond and the Barclays Capital Credit Bond indices.

Barclays Government Intermediate - All bonds covered by the Barclays Capital Government Bond index with maturities of 1 and 10 years.

Barclays Aggregate Bond - This index is made up of the Barclays Capital Government/Credit, the Mortgage-Backed Securities, and the Asset-Backed Securities indices. All issues in the index are rated investment grade or higher, have at least one year to maturity, and have an outstanding par value of at least $100 million.

Barclays Government Long Term - All bonds covered by the Barclays Capital Government Bond index with maturities of 10 years or greater.

Merrill Lynch High Yield Master - Market-cap weighted index providing a broad-based measure of bonds in the US domestic bond market rated below investment grade but not in default. Includes only issues with a credit rating of BB1 or below as rated by Moody’s and/or S&P, at least $100 million in face value outstanding and a remaining term to final maturity equal to or greater than one year.

Dow Jones Wilshire REIT Index - A measurement of equity REITs and Real Estate Operating Companies. No special-purpose or health care REITs are included. It is a market capitalization-weighted index for which returns are calculated monthly using buy and hold methodology; it is rebalanced monthly.

Citigroup 3 Month Treasury Bill - Represents the monthly return equivalents of yield averages that are not marked to market, this index is an average of the last three three-month Treasury bill issues.

50/50 Blend (S&P 500/BCIGC) - A blended benchmark consisting of 50% S&P 500 and 50% Barclays Capital Government/Credit Intermediate indices.

RICHARD BLAND COLLEGE

2014 CAMPUS MASTER PLAN:
BUILDING COMMUNITY BY TRANSFORMING PHYSICAL SPACE

Beginning in the fall of 2013, the College received campus master planning services with RRMM Architects, Inc. of Chesapeake, VA, and Vanasse Hangen Brustlin, Inc. (VHB), civil engineers and landscape architects to develop a new master plan for the College's campus. RRMM is also designing the renovations currently underway on Ernst Hall and VHB has provided previous civil engineer services on campus.

The central goal of the new campus master plan focuses on building community by transforming RBC's physical space from a commuter campus to a residential, pedestrian-friendly campus. Academic, athletic and residential activity is concentrated in the southwest and northwest quadrants to create a feeling of condensed activity and energy. Pedestrian corridors connect the academic quad to the athletic and residential quadrant. Traffic nodes on Johnson Road and Carson Drive are designed to slow traffic, and vehicles and parking are redirected to the periphery of the main campus. A trail system loops the campus, intersecting with sensitively created storm water management areas to focus on the natural beauty of RBC's campus and to encourage engagement with the delineated wetlands and the pecan groves.

The new campus master plan reorients the main entrance of campus turning off Halifax Road and progressing to the center of campus along a pecan-lined Carson Drive. The northwest quadrant of campus focuses on athletics and residence halls, increasing housing occupancy to 700 students by 2019 and providing significantly diverse recreational opportunities from zip lines and a field house to a new track for the enjoyment of all members of the campus community.

Academic buildings are clustered in the southwest quadrant of campus. The College’s six-year capital plan submitted to the Commonwealth in the summer of 2013 includes, as its key new academic facility, an Academic Innovation and Resource Center to house the nexus of technology and information including the library; information technology, including cyber security, computer modeling, simulation, gaming and logistics; the Center for Strategic Initiatives, including, among others, support for Main Street Virtual Learning and the Language Institute; and a home for the technical and creative arts, such as film production, videography, and art design.

The Academic Innovation and Resource Center is intended to support existing academic programs by providing appropriate space and equipment for faculty to engage in research and development necessary to keep current courses up to date and relevant as the College seeks to improve learning outcomes through new pedagogies and learning technologies. After the Academic Innovation and Resource Center has been constructed, the current library is expected to be renovated to accommodate a “One-Stop Student Center” to better serve our students and their families. This service model includes in one location admissions, financial aid, student accounts, registrar, and
student support services. Linked physically to the Student Commons, it will create a full-service student center appropriately positioned in the midst of the academic, athletic and social spaces of our campus.

The new campus master plan calls for the east side of campus to “go green,” improving the health of our pecan groves in the northeast quadrant, providing a focus on environmental sustainability, and developing space for new programs in agri-business, equine therapy, and the like, perhaps in collaboration with other colleges and universities. This incredibly beautiful campus holds many opportunities for future growth and programming to align with the goals of RBC-19, our current strategic plan, and to build for the future.

At the February 2014 meeting, the Richard Bland College Committee of the William and Mary Board of Visitors were provided an in-depth presentation on the intentions of the new campus master plan by RRMM Architects, VHB, and Richard Bland College administrators to seek feedback to move forward with the plan. The new campus master plan has been shared with college constituents to include the Richard Bland College Foundation.

BE IT RESOLVED, That the Board of Visitors hereby endorses and adopts the new campus master plan, dated January 2014, and directs the College administration to oversee implementation and ensure compliance with the plan.

The gown is an open-front robe, patterned after those used at Oxford University, with the gown body in dark Kelly green, dark green sleeve bars and front panels of dark green velvet on which the William and Mary cipher – the intertwined W and M – is embroidered in gold; and

WHEREAS, in 1993, with the election of The Rt. Hon. The Baroness Thatcher as the twenty-first chancellor, and to commemorate the tercentenary of the university, the Chancellor’s academic regalia was redesigned and revised to be a robe of green silk damask with cape collar and panel sleeves; trimmed with gold oak leaf lace, with the College coat of arms displayed on the cape collar; and

WHEREAS, the College has also adopted distinctive doctoral regalia consisting of a Kelly green robe, with three chevrons on the sleeve piped with the appropriate color of the degree, and a black velvet tam, which was first worn by graduates at Commencement 2002. With an open front in the tradition of the British universities, the piping surrounding the chevrons identifies the degree conferred. The William and Mary cipher with crown is embroidered in gold on the front panels, which are black velvet; and

WHEREAS, as of 2009, undergraduate robes are black with a green strip on the sleeve; undergraduate regalia consists of a robe, a cap, a tassel and a hood with colors indicating the graduate’s degree; and

WHEREAS, Presidential regalia is unique among academic vestments in that it symbolizes the president’s rank and authority as the chief official of the institution, rather than reflecting an individual’s academic credentials. University presidents wear their distinctive regalia when participating in official university ceremonies and convocations. There are four velvet chevrons on the sleeves of presidential regalia whereas standard doctor’s robes feature only three. While past practice has been for each William & Mary president to wear the robe of his own alma mater, several members of the Board of Visitors and members of the William & Mary community have suggested that the President of the College of William & Mary also wear special academic regalia; and

WHEREAS, the President’s robe is an open-front Jefferson style robe in dark green with black velvet panels and four sleeve bars; the panels and sleeve bars are trimmed with bright gold cord and the William & Mary cipher and crown is embroidered in goldenrod on the panels.
THEREFORE, BE IT RESOLVED, That the official regalia for the President of the College shall be worn at all official College convocations, inaugurations and special occasions at which the President represents the College of William and Mary.

Article III, Section 2 of the Board of Visitors Bylaws states that changes to any Bylaws of the respective faculties of the College "may be amended by the Board on its own motion or by Board approval of amendments suggested by the respective faculties and recommended by the appropriate President."

The Faculty of Arts & Sciences passed the attached bylaws amendment regarding the formation of the new Committee on Faculty Awards, Professorships, and Prizes (CFAPP) at its May 6, 2014 meeting.

THEREFORE, BE IT RESOLVED, That upon recommendation of the President, the Board of Visitors of the College of William and Mary approves the following amendment to Article V of the Bylaws of the Faculty of Arts and Sciences, effective immediately.
PROPOSED AMENDMENT TO ARTS AND SCIENCES BY-LAWS
TO CREATE AN ARTS AND SCIENCES
COMMITTEE FOR FACULTY AWARDS, PRIZES, AND PROFESSORSHIPS
Submitted by the ad hoc Committee on Faculty Awards, Prizes and Professorships

To be added to Article V, Elected Committees of the Faculty:

Sec. 7.1. There shall be a Committee on Faculty Awards, Prizes and Professorships (CFAPP) consisting of six voting members from the Arts and Sciences faculty (two each from Areas I, II, and III). In addition, one ex officio representative from the Dean of the Faculty of Arts and Sciences Office will be selected by the Dean of the Faculty of Arts and Sciences to serve on the committee in an advisory role. Voting members of CFAPP will be elected and serve for three years, and must be tenured. Election will be staggered, with two members being elected each year.

Sec. 7.2. The CFAPP, in cooperation with the Dean of the Faculty, will review and suggest revisions to solicitations for awards, prizes, and professorships, and will suggest methods of advertising solicitations that reach as many faculty as possible. The CFAPP will monitor and review the procedures for solicitation, nomination, and selection of awards, prizes, and professorships, and it will recommend changes with the goal of improving efficiency, transparency, participation, and fairness.

Sec. 7.3. By September 1 each year, the Dean of the Faculty of Arts and Sciences Office should provide a list to CFAPP of all Arts and Sciences Faculty who have current awards, prizes, and professorships and are required to serve on review committees in the upcoming academic year. At the same time, the Dean’s Office should provide a list to CFAPP of all likely awards, prizes, and professorship solicitations for the upcoming academic year. The CFAPP will then make recommendations to the Dean of the Faculty for review committee membership. Except for awards, prizes, and professorships with existing committee structures, at least one CFAPP faculty member will be part of each review committee for A&S eligible awards, prizes, and professorships.

Sec. 7.4. The Dean of the Faculty will make available to CFAPP an ongoing annual record of all nominees and awardees for all awards, prizes, and professorships. Using this record, the CFAPP will attempt to identify inequities in the nominations for, and selection and distribution of, awards, prizes, and professorships within Arts and Sciences, and make recommendations to the Dean of the Faculty to remedy these issues.

Sec. 7.5. The CFAPP will report once per year to the Faculty Affairs Committee and the Faculty of Arts and Sciences, including numbers of nominees; numbers of awards, professorships, and prizes; and names of faculty members to whom awards were given. The CFAPP will serve as a contact for A&S Faculty with compliments, concerns, and/or recommendations about the process of soliciting, nominating, and selecting awards, prizes, and professorships.

Sec. 7.6. CFAPP members are eligible for all awards, prizes, and professorships during their tenure on the committee. CFAPP members that hold awards, professorships, or prizes are exempt from the requirement of serving on review committees, as their service on CFAPP is considered to fulfill that requirement.
COLLEGE OF WILLIAM AND MARY
REVISIONS TO THE BYLAWS
OF THE SCHOOL OF EDUCATION

Article III, Section 2 of the Board of Visitors Bylaws states that changes to any bylaws of the respective faculties of the College "may be amended by the Board on its own motion or by Board approval of amendments suggested by the respective faculties and recommended by the appropriate President."

It is proposed that currently defined "areas" in the School of Education's bylaws be renamed "departments" in order to make the school's organizational structure clearer; to allow greater flexibility in hiring colleagues on sponsored projects; and to provide more revenue generated by sponsored projects directly to the relevant department.

The Dean of the School of Education discussed making this change to the wording in the bylaws with the Faculty Executive Committee before bringing a motion to the entire faculty. The revisions were approved at the February 12, 2014 faculty meeting.

THEREFORE, BE IT RESOLVED, That upon recommendation of the President, the Board of Visitors of the College of William and Mary approves the following revisions to the bylaws of the School of Education, effective immediately.
