¹ If exempted from BIOL 203 (formerly 225), students may either take BIOL 203 for credit or an additional approved upper level elective in Biology.

² A maximum of two courses may be applied to both a major and minor. Core Course 3 options required for most majors omitted for guidance.

³ Chosen from BIOL 306/310/345/415/420/433/437/442/453 without violating the two course maximum for applying courses to major & minor.

⁴ BIOL 453 and CHEM 453 are cross-listed; CHEM 415 overlaps with BIOL/CHEM 453 extensively; only one of these courses may be taken for credit.

Initial below to acknowledge additional minor program requirements have been or will be met:

_____ Courses completed for a Biochemistry minor may not be taken on a Pass/Fail basis.

_____ A 2.00 grade point average must be earned in the courses taken to fulfill the Biochemistry minor.

_____ The Biochemistry minor requires a minimum of 18 credits with at least 9 credits taken in residence.

_____ EITHER none of the courses were transferred to W&M after matriculation OR Committee on Degrees approval is attached.

I certify that these courses fulfill the requirements for a minor in Biochemistry as long as the student's concentration remains:
