

**Professor Randolph Coleman**

**Email:** [racole@wm.edu](mailto:racole@wm.edu)

**Work Phone:** 757-221-2679

**Office Location:** ISC3 1289

**Office Hours:** In lieu of office hours, I strongly encourage you to contact me by email at any time. Be sure to include "Online Biochem" in your subject field.

### **Course materials:**

Biochemistry, 6<sup>th</sup> ed. by McKee & McKee.    Student Study Guide (optional, but **highly** recommended)

**OBJECTIVES:** Objective lists will be found at the beginning of each Unit and correspond to the chapters in the course textbook. You should know the answers to these objectives in preparation for each Unit test given on Friday of each week. While no specific problems are assigned, it is recommended that you try a sampling of the problems at the end of each chapter. The answers to some problems are found at the back of the textbook. The answers to the remaining problems are found in the *Study Guide*.

**COURSE HELP:** Please email me at any time (use Online Biochemistry in the subject field). Review sessions are scheduled each week via Zoom on Tuesday & Thursday at 5:00 pm EDT. The sessions are recorded for those students who can't attend.

## **WEEKLY ASSIGNMENTS**

Chapters are shown for each day for an in-person class. You may move as quickly as you wish!

Many students view all of the Unit videos over the preceding weekend and use the weekdays for slower review!

<u>WEEK OF</u>	<u>MON</u>	<u>TUE</u>	<u>WED</u>	<u>THR</u>	<u>FRI</u>
:					

July 5	1/2	2/3	2/3/4	4/5	<b>UNIT 1 TEST</b>
					(1-4, AA 5)
