

EPC Minutes  
March 5, 2004

Attendance, C. Boggs, C. Butler, J. Charles, A. Firestone, E. Hall, P. Kearns, L. Leemis,  
L. McManus, E. Pratt, J. Taylor, D. Eck

I. Minutes February 20, tabled

## **II. Overview of Actions**

### New Courses

CHIN 400—Chinese Studies in China III—Tabled  
FREN 301—Life in Montpellier—Approved  
FREN 302—Perspectives on Contemporary Society—Approved  
KINE XXX—KINE 303L--Human Anatomy Laboratory—Approved  
MATH 345—Introduction Mathematical Biology—Approved

### Course Changes

CHIN 200—Chinese Studies in China I---title change and description change  
Tabled  
CHIN 280—Asian Cultures through Film---description change and title  
change— Cross listed with JAPN 280--Approved  
CHIN 300—Chinese Studies in Beijing Program II—title change--description  
change--Tabled  
CHIN 301—Upper-Intermediate Chinese I—title change—description  
change--Approved  
CHIN 302—Upper-Intermediate Chinese II—title change—description  
change--Approved  
JAPN 280—Asian Cultures through Film—Cross listed CHI280-title  
change—description change-Approved  
KINE 303L—Human Anatomy—Cross listed with BIOL 308—Description  
change-Approved

### Curriculum Changes

KINE—Description Changes—see updated notes below—Approved  
MLL—Description requirement changes—description changes--Approved  
RELG—Description Changes--Approved

## **III. Explanation of Decisions Above**

**CHINESE 200, 300 and 400:** The Chinese section of MLL is requesting CHIN 200, 300 and 400, 'Chinese Studies in Beijing,' be listed in the catalog as 'Study Abroad in China' in order to allow students to study at other institutions in China and have the credit come into their transcripts under this rubric. This presents a problem because only courses from William and Mary study abroad programs may be listed in the catalog (a William and Mary program is one the Reves Center administers;

students pay William and Mary and not IES or another institution). Courses taken at non-William and Mary study abroad programs come in as transfer credit and cannot be listed in the catalog. The Beijing study abroad program is a William and Mary program, but it is unclear whether or not other programs would be. EPC will ask for clarification from the Chinese section.

**KINESIOLOGY NEW LAB COURSE:** EPC designated the new Kinesiology course as KINE 303L. This laboratory course is crosslisted with Biology. Biology will be notified of the new number, and the new course will also be in the course catalog.

**KINESIOLOGY CURRICULAR CHANGE:** The new Kinesiology curriculum was voted on and unanimously approved with amendments. See highlighted changes below for all KINE curriculum changes.

### **Kinesiology Curriculum with Amendments**

Kinesiology, the study of human movement, prepares students for a wide variety of academic and professional pursuits in the Allied Health Field. The Kinesiology major requires a minimum of 34 hours (~~Kin 150, KIN 200 and above~~) **(excluding activity courses)** from the core curriculum courses listed below. The major writing requirement in Kinesiology may be satisfied by obtaining a C- or better ~~on the writing grade~~ in KIN 470W/471W, 480W/481W, 493W, 495W or 496W. Kinesiology majors will satisfy the computing proficiency requirement by passing Kin 308 or Kin 394.

Students may choose to receive a bachelor of science (B.S.) degree or a bachelor of arts degree (B.A.) degree when completing the Kinesiology major.

Candidates for the B.S. degree ~~with non-natural science majors~~ **in Kinesiology** must complete three additional courses in computer science, mathematics, biology, chemistry, geology, or physics. This is in addition to satisfying the GER 1 and 2.

Students receiving a B.S. degree must pass the following required courses:

- KINE 303 Human Anatomy
- KINE 304 Human Physiology
- KINE 394 Statistics and Evaluation (GER1)
- One major writing course

Students receiving a B.S. degree must also pass two of the following courses:

KINE 308 Biomechanics of Human Movement  
KINE 350 Science of Nutrition (GER 2B)  
KINE 420 Mechanics of Human Locomotion  
KINE 442 Exercise Physiology  
KINE 485 Cellular and Biochemical Effects of Exercise  
KINE 494 Environmental Human Physiology

Students receiving a B.A. degree must pass the following required courses:

Computer requirement course  
One major writing course

Students receiving a B.A. degree must also pass three of the following courses:

KINE 303, Human Anatomy  
KINE 304, Human Physiology  
KINE 308, Biomechanics of Human Movement  
KINE 322, Motor Learning  
KINE 350, Science of Nutrition (GER2B)  
KINE 400, Sport Psychology (GER3)  
KINE 442, Exercise Physiology  
KINE 493, Philosophy of Kinesiology (GER7)

#### Requirements for the Minor

A minor in Kinesiology consists of 21 credits from the core courses listed above. All Kinesiology minors must pass the following required courses:

KINE 303 Human Anatomy  
KINE 304 Human Physiology

~~Registration preference will only be given to majors.~~

#### Core Courses in Kinesiology

150 Freshman Seminar  
204 Introduction to Kinesiology  
295 Scientific Principles of Exercise Prescription (GER 2B)  
303 Human Anatomy  
**XXX 303L Human Anatomy Lab**  
304 Human Physiology (GER 2B)  
305 Human Physiology Lab  
308 Biomechanics of Human Movement  
310 Adapted Physical Activity

320 Issues in Health  
321 Health and Human Movement  
322 Motor Learning  
335 Play, Sport and Culture  
340 Motor Development (GER 3)  
350 Science of Nutrition (GER 2B)  
355 Sport and Gender  
365 Current Scholarship in Kinesiology  
394 Statistics and Evaluation (GER 1)  
400 Sport Psychology (GER 3)  
420 Mechanics of Human Locomotion  
422 Motor Control  
442 Exercise Physiology  
460 Topics in Kinesiology  
470/471 Independent Study in Kinesiology  
480/481 Kinesiology Research  
482 Research Methods, Design and Implementation  
485 Cellular and Biochemical Effects of Exercise  
493 Philosophy in Kinesiology (GER 7)  
494 Environmental Human Physiology  
495, 496 Honors  
498 Internship

#### **IV. Old Business**

- 1. Freshman Seminars in freshman year:** Carolyn Boggs states that the Banner system, along with the advising, will help to enforce the faculty approved rule that freshmen take their Freshmen Seminar in their freshman year. Carolyn Boggs expressed concern that approximately 65 sophomores still need to complete the freshmen requirement for next year. This creates a problem when it comes to registering because of the enrollment pressure of the incoming freshmen. EPC is still discussing possible sanctions, including registration holds, for students who do not comply with this rule.
- 2. DIL—**Phil Kearns will head the subcommittee to create more DIL questions and to ready the test for the mandatory tests next year.
- 3. GER** final report will be completed by Ed Pratt who will take it to the assessment steering committee for discussion.

Meeting adjourned at 2:40 pm  
Respectfully submitted,  
Debra Eck, Recorder
