4. GER Applications

ANTH 350	<i>Archaeological Perspectives on African Cities, States, and Empires</i> Tabled pending syllabus submission
ANTH 350	<i>Andean Archaeology</i> Tabled pending syllabus submission

5. Internships for the Washington Program: A recurring issue with internship courses and credits associated with the Washington Program deserves a uniform

solution. Dean Tandeciarz will check with the Washington Program Advisory Committee for information to help EPC formulate a policy.

6. GER Designation for New Courses: Dean Tandeciarz asked that when EPC approves new courses that seem to satisfy GERs, we ask the submitter to consider requesting that the course be approved for GER credit.
7. St. Andrews Joint Degree Program: EPC believes that it should review the report of the ad hoc St. Andrews Review Committee before any final action is taken. The issue of how the St. Andrews breadth requirements relate to the GERs is the primary concern. Dean Tandeciarz will communicate EPC's position to Dean Strikwerda.
8. Meeting adjourned at 5:05pm
