**4. Suggestions for future applications**

To aid the committee in determining the distribution of domain attributes for COLL 200 applications it was suggested that submitted syllabi supply greater detail regarding the course goals, structure, objectives, and assignments.

**5. Future business/updates**

Review of the COLL 300 is slated for 2021. In light of COLL 350 EPC will need to reconsider COLL 300. This will likely necessitate the formation of an EPC working group to develop the new variation of COLL 300. There is already a working group overseen by John Donahue and including Ben Boone and Chris Nemacheck beginning to think about COLL 300. EPC will likely work together with that group.

Establishing an experiential attribute has come up in discussion with one of the Career Pathway teams and in consultation with the STLI. We will be learning more about the intentions of the experiential attribute in the coming months.
