*New Deadlines:*

COLL 150/100: November 23  
COLL 350: December 4  
EPC: December 11

*Winter meetings will not be mandatory, and will be assessed under modified quorum. Urgent proposals will be the main focus through the December 11th deadline.*  
*Some COLL150 proposals may be coming in after the November deadline due to new funding.*  
*Current policy to approve all 100/150 courses that are approved by the COLL150/100 subcommittee will be continued into the winter. December 4th 350 subcommittee deadline is consistent with earlier deadlines in relation to the new December 11th deadline.*  
*Additional course approvals may be requested later in the winter break.*

**Spring Semester:**

*An email is coming in the break (after student course registration) with a survey for spring semester meeting times. Please be as generous as possible for available meeting times so that the committee has more options for a consistent weekly meeting.*

**Next week's agenda:**

Tentative Pass/Fail policy discussion for the Spring semester.

Special thanks to Cory Springer for leading us in a closing meditation!
