---------------------------------	---------------

Approved.

MATH - 311H - Elementary Analysis - Honors	New course
--	------------

Approved pending consideration of course name change to avoid confusion with senior Honors.

Foreign Language Proficiency

Josh informed the committee of Dean Donoghue-Velleca's decision to deny additional FLP languages pending further consideration of the ongoing discussion on less-commonly-taught languages. At a subsequent meeting the committee will consider a clarification to the catalog language for the foreign language proficiency requirement.

Pass/Fail

The committee discussed a draft letter from the committee chair to students intended to help reduce the tension between students and the administration due to a non-expanded Pass/Fail policy during this pandemic semester. The committee expressed a desire to find ways to help support student wellness during the continuing pandemic environment. In regards to the Pass/Fail policy, Professor Evans said that if there was a proposal to endorse the students' position he would be favorable.
