Course change Delinking

Request more information regarding delinking and push this course approval until January as it is not immediately urgent. Also, it would be helpful to clarify further regarding the variable credit options requested.

RUSN - 211 - Intermediate Russian Study Abroad I

New course Delinking

EPC will vote on approving delinking and numbers, but also add a note pointing out that we would like further discussion in the future about the instructors. We do already approve and provide numbers to courses that are taught by local faculty for summer study abroad. **APPROVE**

COLL 350 Delinking

The number of hours the professor expects students to put towards this class to meet the credit hour policy seems unrealistic or at least unclear based off the current submission.
