3. Other proposals

APSC - 345 - Lipids: From Biochemistry to Diseases and Applications	New course	
DATA - 303 - Data Visualization	COLL 200	NQR > ALV
HIST - 212 - Race & Gender in the American Revolution in Media	COLL 350	
PUBP - 491 - Advanced Topics in Public Policy	Course change	Delinking
PUBP - 491-02 - Advanced Topics in Public Policy	Course change	Delinking

- APSC – 345: Asking instructor about whether course can be offered as existing topics course and about overlap with other advanced chem/bio coursework.
- DATA – 303: Approved with syllabus.
- HIST – 212: Approved for one year.
- PUBP – 491 (1&2): Section 2 approved. Section 1 approved as long as 20-hour pre-departure portion is separate.
- UREGs Delinking review: Ben expects 150 - 200 of these. Discussion of what materials and information are needed to facilitate approval and a process to streamline the review of UREGs. Agreed that syllabus statement and (draft or boilerplate) syllabus are necessary for accreditation. IAE suggests we need an official vote in EPC, but a subcommittee could do the initial review and recommend. Initial plan to set general expectations for identifiable categories and a subcommittee will provide initial evaluation to bring to the EPC in batch.
