**ANNOUNCEMENTS**

- **Research at National Energy Technology Laboratory (NETL).** Participants are provided the opportunity to conduct hands-on energy research at NETL through educational programs administered by the Oak Ridge Institute for Science and Education (ORISE). NETL’s Core Research and Development areas focus on five energy related issues: Chemical Engineering; Decision Science and Analysis; Systems Engineering and Integration; Applied Materials Science and Engineering; Environmental Subsurface Science. To engage these five critical issues, ORISE offers three highly competitive programs designed for all academic levels – the Professional Internship Program (PIP) (graduate students in good standing at a regionally accredited college/university, or a post-baccalaureate within one year of graduation), the Postgraduate Research Program (PGRP) (for graduates who received their master’s degree within the last three years, or doctorate within the last five years). Please visit to learn more about the program and the application process. To be considered for the NETL research program students need to apply online.

- **The National Academies of Sciences, Engineering, and Medicine** is accepting applications for the 2018 Ford Foundation Fellowships Programs for Achieving Excellence in College and University Teaching. Full eligibility information and online applications are available on their website. Through its Fellowship Programs, the Ford Foundation seeks to increase the diversity of the nation's college and university faculties by increasing their ethnic and racial diversity, to maximize the educational benefits of diversity, and to increase the number of professors who can and will use diversity as a resource for enriching the education of all students. Application Deadline Dates: • Predoctoral: December 14, 2017 (5:00 PM EST) • Dissertation: December 7, 2017 (5:00 PM EST) • Postdoctoral: December 7, 2017 (5:00 PM EST)
The Department of Energy’s Office of Science is now accepting applications for the Office of Science Graduate Student Research (SCGSR) program (2017 Solicitation 2). Applications are due 5:00pm Eastern Time on Thursday, November 16, 2017. The SCGSR program provides doctoral dissertation/thesis research opportunities for graduate students at DOE national laboratories. Details about the program and online application can be found at https://science.energy.gov/wdts/scgsr/.

The 2018 RASC-AL Competition is seeking concepts that leverage innovations to improve our ability to travel between Earth and other destinations, using the framework for NASA’s Deep Space Transport (DST). Successful proposals will demonstrate comprehensive engineering analysis of innovative capabilities and/or new technologies for evolutionary architecture development to enable future missions, reduce cost, and/or improve safety. Teams that are selected will receive a $6,000 stipend to facilitate participation in the 2018 RASC-AL Forum held in Cocoa Beach, Florida in June. Student teams and their faculty advisors are invited to submit abstract and video proposals by January 21, 2018 by responding to a Theme. For more information and submission details

Applications for the Virginia Space Grant Consortium Graduate Research Fellowships are now available. The fellowships provides fellowships of $6,000 in add-on support to graduate students to supplement and enhance basic research support. Applicants must be enrolled full-time in a program of study in science, technology, engineering, or math (STEM) and have a specific faculty-mentored research project that has NASA or aerospace relevance. APPLICATION Deadline February 5, 2018 (Letters of recommendation must be received by February 12th, 2018.) Applicants will be notified early April. Any questions can be directed to Joyce Kuberek. More
