eLearning @ WM
Questions? Here's who to ask

eLearning is the integration of technology into teaching and learning

Information Technology

What tools and applications does the campus provide? • How can I access campus eLearning tools? • Computer lab set up and support • How do I use a campus tool? • Help when campus eLearning tools aren't working • Policies for appropriate use of tech • Questions or ideas relating to tech in classrooms or other campus spaces

The **Technology Support Center** provides support by email, phone, or walk in. The **classroom team** provides quick assistance as well as consultation. An **academic applications specialist** assists with Blackboard

W&M Libraries

How can I help students use critical thinking skills to find and evaluate electronic resources? • Create and share digital editions of my own research • How do I find "open educational resources" to reduce my students' textbook costs? • Data management • Who can help me design multimedia assignments? • Media technology • Copyright/fair use guidelines

Faculty Liaisons assist faculty in selecting course material and designing research activities. **Workshops** introduce library resources. The **Media Center** offers equipment and multimedia instruction.
