APPENDIX F
WILLIAM & MARY CAMPUS DESIGN GUIDELINES

F.1 Availability of the Design Guidelines

The William & Mary Campus Design Guidelines is available as a downloadable and searchable PDF file on the Office of the University Architect (OUA) website – wm.edu/architect in the "Campus Design Guidelines" section of the "Campus Planning" site.

F.2 Applicability of the Design Guidelines

The William & Mary Campus Design Guidelines apply to all design projects. The Standards are to be incorporated into the design and construction documents; not simply referenced.

F.3 Design Guidelines Support of Campus Planning

The William & Mary Campus Design Guidelines are intended for the use of planners, architects, landscape architects, and engineers involved in the preparation of studies and projects for the university. The Design Guidelines support the Comprehensive Campus Plan (adopted by the BOV in September 2025) and the Annual Capital Plan, which is updated by the BOV each April. The Campus Design Guidelines is one of three key documents that, along with their supporting documentation, guides and informs campus development:

1. 2025 Comprehensive Campus Plan
    a. 2022 Housing and Dining Comprehensive Facilities Plan
    b. Learning Spaces Plan
    c. 100-Year Landscape Plan
2. William & Mary Campus Design Guidelines
3. William & Mary Campus Heritage Preservation Standards (Sunken Garden District)

A copy of each of these documents is available at the OUA website in the "Campus Planning" section.
