

## **America's Weapon Systems**

To view and/or download a course lesson or part of a course select the link below, or if that does not work simply copy the link address below, paste it into your browser's search box, and hit return. To download a brief, simply select the Download button in the upper left corner. The brief you are viewing will be downloaded into your download folder. Open the file there or save to a selected file and then open. You must download and run the powerpoint lessons on your computer to view/listen to embedded videos.
