To modify or update the vehicle information click the “Edit” button. TTI is the system default for data transferred into the system. It must match the DMV information from your issued registration. You will need to Edit this information before requesting a permit.

• Make the necessary changes to the vehicle descriptive information and select “Next” button. Note: The limit is three vehicles per hangtag. Do not enter a spouse’s vehicle if they are entitled to purchase their own decal. Vehicles may only be assigned to one decal/hangtag.

You may edit/update any of these fields. If you have registered the vehicle and have been issued a new license plate number, you cannot edit the plate. You must “add” as a new vehicle, then delete the former entry.
You may bypass this step unless you are adding a new vehicle, then you must upload a copy of your current insurance certificate and DMV registration.

The changes will now show up, in this case I replaced the TTI with the proper make & model.

Once you have added or updated your vehicle information you may now purchase your decal. Select “Get Permits” from the drop down box in the upper left menu bar.
- Click “Get Permits”
- Select “Next” to Purchase a Permit

- Select Permit and Permit Purchase Agreement. You will only see options for the decal or hangtag based on your salary Tier in Banner.

• The new FY 2019-2020 decals will become active on 8-19-19 and are good until 8-31-20

• If you do not have a current permit, you can select “Print Permit” as shown below to print a paper receipt to display on your dashboard with permit number and plate numbers until your permit arrives.

• This is the final step; you may print a payment receipt or log out at this time. Remember you will also receive a receipt via e-mail.
