Methodology

NACE STANDARDS

The Office of Career Development & Professional Engagement adheres to standards for first destination survey guidelines set by the National Association of Colleges and Employers (NACE). In addition to standard questions regarding post-graduation plans (e.g., employment data, graduate/professional school data), the survey collects applied learning data, next destination alignment with career goals, and primary university career influencers.

DATA COLLECTION

The online survey is distributed to William & Mary seniors graduating in August, January, or May of the current academic year. The survey is sent initially in August; then, it is sent monthly to non-respondents and re-sent to those who indicate their status as 'job seeking' or 'applying to graduate/professional school.'

Other primary sources of data retrieval are the National Student Clearinghouse, initiatives with campus partners, and data mining via social media. Data collection closes each December following May graduation. All forms of data collection follow NACE protocols.

KNOWLEDGE RATE

Our knowledge rate is the percent of graduates for which the William & Mary Office of Career Development & Professional Engagement has reasonable and verifiable information concerning graduates' post-graduation career outcomes. Information is retrieved directly from students/recent alumni, employers, campus partners, social media, and the National Student Clearinghouse. The Office of Career Development & Professional Engagement's goal is the highest rate possible; the national average for Bachelor degrees is 55% according to NACE's First Destinations Dashboard for the Class of 2024. Outcomes are reported on conferred graduates. Information is shared in aggregate and published annually in the *Next Destination Survey Report* and the *Career Success Report*.

Results

Experiential Education: Applied Learning

Applied learning engages students beyond the classroom to apply knowledge and develop skills and values that enable them to connect their academic pursuits meaningfully with their personal and professional lives.

512

members of the class of 2024 reported participation in Applied Learning Experiences.

1264

Total number of experiences reported by the class of 2024.

2.5

Average number of experience types reported by alumni.

Applied learning happens in a range of settings across the university and across the globe. Modes of applied learning:

- Internship (for academic credit)
 - Internship (not for academic credit)
 - Athletics
 - Clinical Experience / Placement
 - Community / Civic Engagement
 - Co-op
 - Externships
 - Field Work
- Independent Study
 - Micro-internship / Short-term Project
 - Practicum
 - Research
 - Student Employment (part-time or summer job)
 - Study Abroad / Global Learning
 - Student Teaching
 - Other

Applied Learning
