PracticeAI Quick Start Guide
The PracticeAI simulation offers a highly realistic, adaptive interview experience with instant feedback. Follow these steps to set up and complete your practice interview.

Step 1: Set Up Your Customized Interview
1. **Start PracticeAI:** From the Big Interview main menu, go to the **Practice** tab and select **PracticeAI**.
2. **Define the Job:**
   - Choose a **Job Preset** from the list, **OR**
   - Click **Add Job Description** and paste the specific job description for the role you are targeting. *(This is highly recommended for the most tailored questions.)*
3. **Upload Resume (Optional but Recommended):** Click **Upload Your Own** to upload your resume (PDF or DOCX). *(The AI will generate follow-up questions based on your experience.)*
4. **Wait:** The system will process the data and customize your interview questions.

Step 2: The Interview
The AI interviewer ("Eve") will appear and ask the first question.
1. **Listen to the Question:** Take a moment to prepare your answer.
2. **Record Your Response:** Click the **Start Recording** button and answer the question out loud.
   - **Tip:** Speak for at least **30 seconds** for the AI to provide full feedback.
3. **Save Your Answer:** Click **Save Answer** when you are finished.

Step 3: Review and Learn
Immediately after saving your response, the system will analyze it and display feedback.
1. **Review Feedback:** The AI provides instant analysis on key areas, including:
   - **Clarity:** How structured and easy to follow your answer was.
   - **Confidence:** Your verbal delivery, pace, and use of filler words (ums/uhs).
   - **Alignment with Role:** How well your content matched the keywords in the job description.
2. **View Optimized Answer:** Review the AI-generated tips and sample answers for improvement.

Step 4: Continue the Adaptive Conversation
The simulation is designed to be a realistic conversation.
1. **Continue:** Click the **Continue** or **Next Question** button to proceed.
2. **Adaptive Follow-up:** The AI will ask a new question that directly relates to your previous answer or probes deeper into a specific point you made.
3. **Repeat:** Follow Steps 2 and 3 until the interview concludes.
