**Ability to resume full-time academic enrollment and residential living or off-campus living:**
Academic responsibility often consists of 12-15 credits of rigorous academic course loads, 3-5 extracurricular activities often with leadership responsibilities, and possible athletics and/or research involvement. Residential living is either alone or with roommates/dorm living where student must maintain all activities of daily living without supervision. Off-Campus living will include all activities of daily functioning independently without supervision.

☐ Student is ready to resume full-time academic enrollment and residential living if available.

**Ability to resume full-time academic enrollment but not residential living:**
Academic responsibilities are outlined above, however, this may mean you do not feel student is able to live within a dorm environment due to interpersonal conflicts connected with mental health symptoms and/or may require some level of supervision with managing aspects of their treatment plan or daily activities.

☐ Student is ready to resume full-time academic enrollment, and is not ready to live in residence.

**Student is not ready to return to academic enrollment or residential living:**
Student has demonstrated that they are unable to manage symptoms without significant support in managing continued treatment plan, unable to live independently without regular supervision, and/or have significant interpersonal concerns due to mental health/safety that would be disruptive to the learning and living environments of others until better managed.
