Please Read Before Displaying Your ADA Accessible Parking Pass

This pass is temporary. It has been provided as a courtesy to you alone and is for use in designated parking areas on the campus of the College of William and Mary.

A pass will only be granted for a car owned by the student or the student’s family. Communal or shared vehicles not registered to the student requesting the pass will not receive a ADA Accessible Parking Pass.

Display this pass properly and make sure that it is valid. Tape this pass in the rear window, driver’s side, facing outward. This pass is valid only when your car also displays a current William and Mary parking decal which may be purchased in the Parking Services Office, 201 Ukrop Way. Call 221-4764 if you have questions about parking decals.

This pass permits parking in any ADA Accessible, faculty/staff, day, resident, or metered space in descending order according to availability. When metered spaces are the only parking option, you may utilize these spaces without feeding the meter.

This pass DOES NOT permit parking in service vehicle spaces, reserved at all times towing enforced spaces, Visitors of the President spaces, fire lanes, and no parking zones. If you do so, expect to be ticketed and towed.

If you require a time extension of this issued temporary ADA Accessible parking pass, please have your physician write or fax the request outlining the proposed extension time, the reason for extension, and prognosis for the injury. As a rule, ADA Accessible parking passes are issued for brief periods of time associated with injury and/or surgery and do not exceed 10 days to 2 weeks. Students who require additional support should work directly with their physicians and the Department of Motor Vehicles. Remember to also purchase and display a valid parking decal with the revised expiration information along with your ADA Accessible parking pass.
