SWISSLOG BENEFITS
(Includes examples in animation)

- Reduced demand for direct labor - (3 people per 2 shift operation = 6 people total)
- Higher throughput possible via 24/7 365 operation potential
- Improved working environment – **less workmen's compensation expense**
- Lower product breakage – Pallets and cases are **safely and reliably** transported
- Accuracy not impacted by conditions (refrigerated/freezer)
- Smaller facility by using cube – very dense storage  
  (25k sq ft building = 12,000 pallets)
- Less car parking space required due to less employees
  - Potential land site reduction due to smaller site footprint
- Potential tax benefits/Green Aspects/LEED

**Example in animation: Manufacturing facility shipping 80 T/Ls per day**
