WILLIAM & MARY

CHARTERED 1693

Session Descriptions

Academic Life

Join the Dean of Undergraduate Studies to discuss the academic expectations of the university. A faculty panel follows to discuss classroom dynamics & exciting possibilities for undergraduates with regard to research, scholarship and collaboration.

Authentic Excellence

This program explores the Plateau Effect, the tendency for people to stay "stuck at good," and how the college transition can be a critical time for either breaking that pattern or cementing it further. Students will learn about the Authentic Excellence Initiative, designed to move us beyond the Plateau Effect and enhance productivity, fulfillment, and resilience.

W&M Washington Center

Join the William & Mary Washington Center's staff for an engaging session designed to educate you about your campus in the city. Started in 2001, the Washington Center partners with faculty from departments and schools across William & Mary to offer high-impact learning experiences for students in all majors. Among diverse topics offered are government, policy, culture, business and education

Ensuring Community

Not only is it important for you to know and understand the ripple effect of your choices, but it is also important for you to know the resources available to you and your peers as life unfolds during your time at W&M. This presentation showcases offices and departments that we readily reference during policy and protocol review. This is your opportunity to learn about their work ensuring our community stay strong, from them directly.

Global Education

As the #1 public university for study abroad, W&M values global experiences. Through many activities the Global Education Office supports student development and works to address barriers to those experiences through student programming and the administration of study abroad scholarships.

Making a Tribe Choice

Learn about campus policy, resources, and risk reduction with upper-class students focusing on alcohol, decision-making, and issues of sexual misconduct.

One Tribe, Many Stories

William & Mary students are diverse in talents, interests, backgrounds, and identities. Explore the rewards, obligations, and tensions associated with your commitment to the William & Mary Community.

Student Success

The Dean of Students Office and members of the Honor and Student Conduct Councils present an outline of our community values and their resources available to support student success, in and outside the academic classroom.
