DC Component for the Hybrid Plan

The Defined Contribution Component Offers Two Plans: Hybrid 401(a) Cash Match and Hybrid 457 Deferred Compensation.

Hybrid 401(a) Cash Match Plan
- You contribute a mandatory 1 percent of your creditable compensation each month to your 401(a) account. Your employer contributes a mandatory 1 percent.
- Your employer must match the first 1 percent of your voluntary contribution with a corresponding contribution of 1 percent of your creditable compensation. Each of your additional 0.5 percent increases will be matched by your employer with a 0.25 percent contribution.
- Employer 401(a) Cash Match contributions vest as follows:
  - 1 year – 0%
  - 2 years – 50%
  - 4 years – 100%

Hybrid 457 Deferred Compensation Plan
- Allows you to accumulate additional voluntary contributions on a tax-deferred basis until you leave employment or withdraw the money from your plan.

Your mandatory and voluntary contributions are always 100% vested.

Benefits of making voluntary contributions to your hybrid account:
- Your employer will match a portion of your contributions (see Contribution Table).
- You may select from a variety of available investment options.
- Your investments could generate compounded earnings, and further generate compounded earnings on those compounded earnings.

Why Make Voluntary Contributions?

Meet Will: This chart demonstrates how much more he could save by making voluntary contributions to the Hybrid Retirement Plan.

Will could save $102,448 more by making a 2 percent before-tax voluntary contribution to the Hybrid Retirement Plan.

For illustrative purposes only and based on a monthly income of $3,000, assumes a monthly employee contribution made on the 15th and 30th of each month and a 6% average annual return after 30 years. The final account balance does not account for plan fees or expenses, which would reflect lower net returns. Investment return and principal will fluctuate, so when shares are redeemed they may be worth more or less than the original cost.
Virginia Retirement System - Hybrid Plan

- Vesting period for the defined contribution employer match is:
  - 2 years of service = 50% vested
  - 3 years of service = 75% vested
  - 4+ years of service = 100% vested
- Following separation of employment (prior to retirement), you can (1) withdraw the funds you contributed (less penalty and tax), (2) roll your funds over into another qualifying account (no fee or taxes), or (3) leave the funds in the plan until you retire.
