## University/Classified Non-Exempt Overtime Compensation:

Employees in a university/classified position that is designated as non-exempt under the Fair Labor Standards Act must select the method of compensation for hours worked beyond 40 in a work week prior to working overtime. As a non-exempt employee you have a choice to receive either leave or pay. If leave is chosen you will earn 1 1/2 hours of overtime leave for each hour worked over 40 during the 7 day work period. The limit for overtime leave accrued is 120 hours. If pay is chosen you will receive 1 1/2 times your average hourly rate for the 7 day work period for each hour worked over 40 during the work period.

Employees may only make changes in their overtime compensation election twice a year in January and July to be effective January 10th, and/or July 10th. If this form is not returned to Human Resources by the due date, overtime leave is the default election.

Please make your election below, and return this form as soon as possible to Human Resources.

If you have any questions, contact the Office of Human Resources at (757)-221-2180.

Virginia Retirement System
Hybrid Benefit Plan

For employees hired on or after January 1, 2014
with no prior State service or refunded State service.

The VRS Hybrid Plan is a combination of a “defined benefit” plan and a “defined contribution” plan.

Your monthly retirement benefit will be based on: (A) your age, years of service, and average of 60 highest months of salary, and on (B) contributions made to the defined contribution plan and the investment performance of those contributions.
Virginia Retirement System
Hybrid Benefit Plan

*Defined Benefit and Defined Contribution*

- **Defined Benefit** – pension or monthly benefit you receive for the rest of your life following retirement.

- **Defined Contribution** – investment of your contributions into a fund(s); benefit you receive in retirement is based on how your investments performed.
Vesting is immediate for your member contribution.

- Must have 5 years to be vested for the lifetime benefit
- Vesting is the minimum length of service needed to qualify for future retirement benefits.

Refunds

Vested members are eligible for a full refund of their member contribution account balance including interest. Non-vested members are eligible for a refund of their contributions but not interest.
Virginia Retirement System - Hybrid Plan

Each pay period, you contribute a total of 5% of your gross pay on a pre-tax basis to a retirement plan:

- 4% to the “defined benefit” (DB) component
- 1% to the “defined contribution” (DC) component

Your defined benefit at retirement is based on formula:

- \( \frac{(\text{Average final compensation} \times 1\% \times \text{years of service})}{12} \)

Vesting period is 5 years to be eligible for the DB
You are eligible to participate if you elect to increase your contribution to the DC component by the 15th of the month prior to the beginning of any quarter. To maximize employer contributions, you may contribute up to an additional 4% and receive the employer match on your contributions.

**Auto Escalation occurs every 3 years.**

The amount you contribute will be increased by .50%.

You can opt-out by calling ICMA 877-327-5261.

Virginia Retirement System - Hybrid Plan

- Vesting period for the defined contribution employer match is:
  - 2 years’ of service = 50% vested
  - 3 years’ of service = 75% vested
  - 4 years’ of service = 100% vested

- Following separation of employment (prior to retirement), you can (1) withdraw the funds you contributed (less penalty and tax), (2) roll your funds over into another qualifying account (no fee or taxes), or (3) leave the funds in the plan until you retire.
Changing your voluntary contribution amount:

- You may change your voluntary contribution percentage once each quarter.

- **NOTE:** VRS uses auto escalation which will automatically increase your contribution by .5% every 3 years until you reach the full 9% contribution in your hybrid retirement plan. You can call ICMA to opt-out of the auto-escalation.

- The percentage on file on the 15th of the last month of a quarter is what will take effect for the following quarter.

Changes can be made by calling:

- ICMA-RC at 877-327-5261
If you are an active member

You may be eligible to purchase time spent in previous public, state or federal employment as service credit in your plan. Prior service credit counts toward the five years needed to become vested.

There is a one-year eligibility period to purchase eligible prior service. During this period, the purchase cost is based on an approximate normal cost rate as a percentage of compensation. Normal cost is the average cost of one year of VRS service credit.

You may purchase up to four years’ of service toward your retirement vesting. Visit the VRS website at: varetire.org for Purchasing Service details or call VRS at: 888-827-3847.
