

Qlik – A Data Discovery Tool

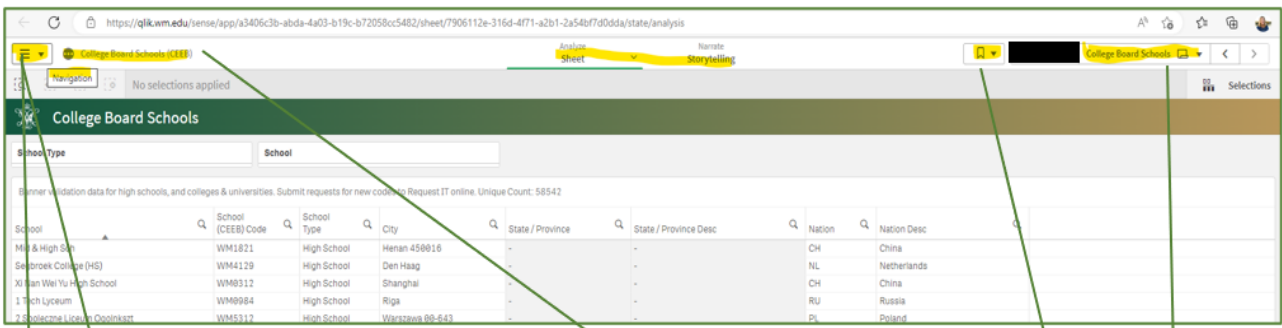

W&M IT - February 2023 Upgrade – Navigation Changes

Sheet Tool Bar

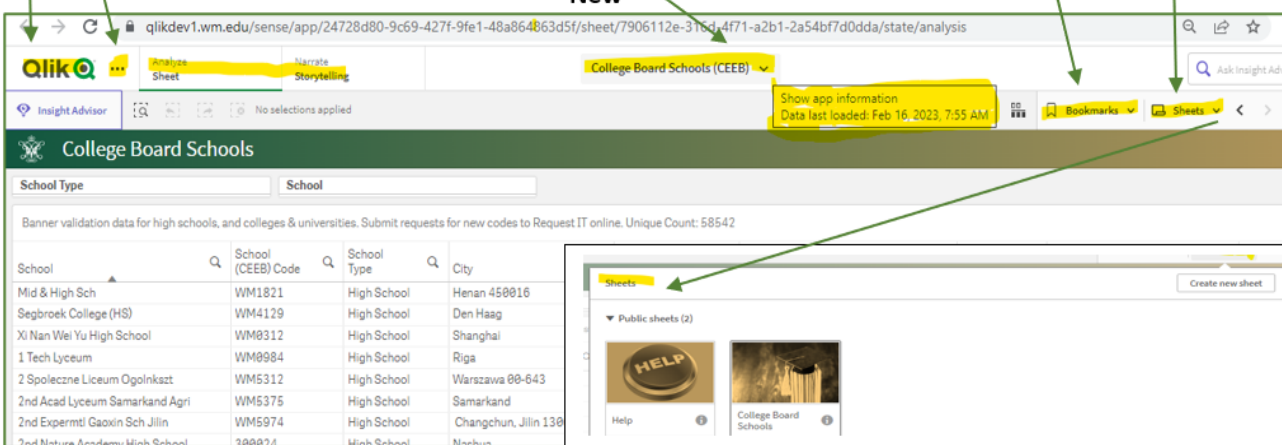

Qlik sheets have a fresh look. Check out the Current vs. New look as highlighted below.

- Enhanced labeling for bookmarks makes it easy to find the bookmark list and options.
- Qlik icon [] makes the “return to hub” a one-click selection (no menu search needed).
- Show/Hide [] on the App name indicates details (description/data last load) are available.
- Enhanced labeling on the navigation icon [ Sheets] becomes more intuitive for finding sheets.

Current

New

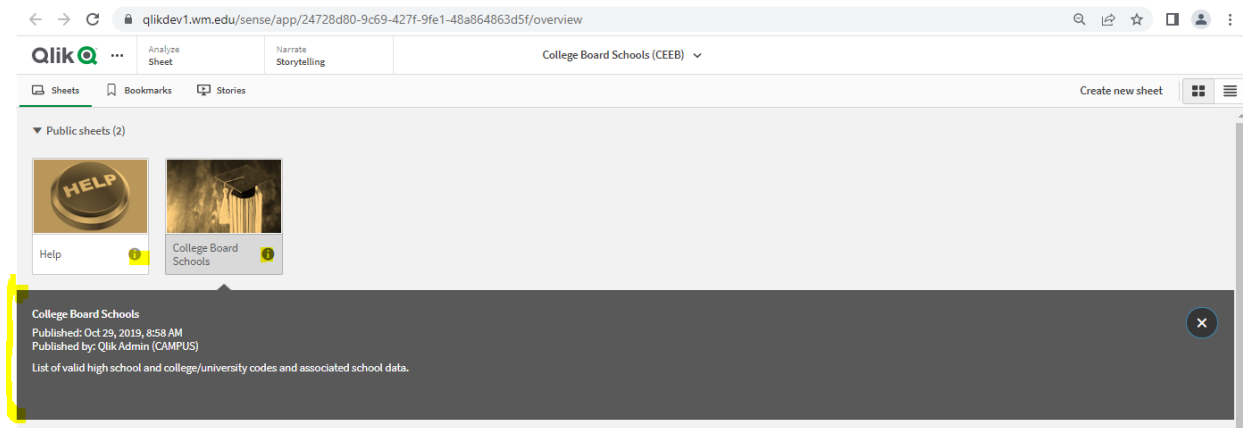

The 'New' interface includes a 'Show app information' callout box with the text: 'Data last loaded: Feb 16, 2023, 7:55 AM'.

The 'New' interface also includes a 'Sheets' dropdown menu with the following items:

- Public sheets (2)
- Help
- College Board Schools

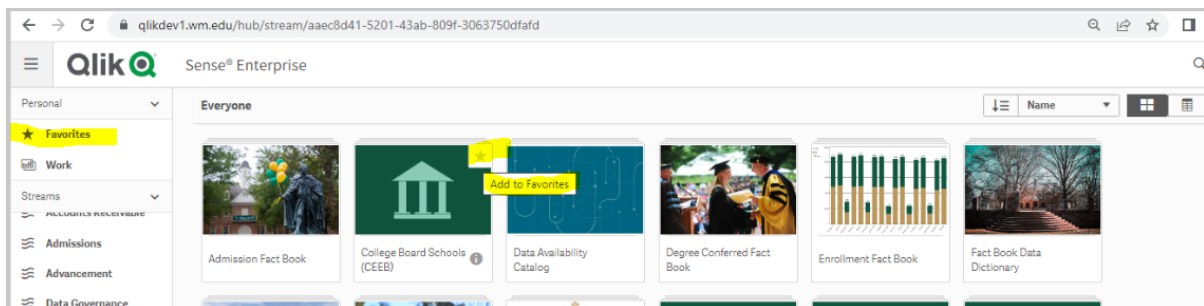

Sheet Details

Information icon [] always displayed. Select icon to display sheet description (if available).

Favorites Stream

Mark commonly used apps as Favorites for quicker access. Hover over the App to display the star icon. Click to select or de-select the App as a Favorite. Favorites stream will not appear until you select a favorite app.
