

The software company Ellucian offers a user group community, along with Banner 9 guides, and self-paced education opportunities for their products through the “Ellucian Hub.”

In order to access the Ellucian Hub, users must first register for an account. After registration you will receive access to the On-Demand Subscription Library. It may take up to five days before access to the library is granted.

Directions for access to the Ellucian On-Demand Subscription Library are outlined below:

1. Visit <https://clientapps.ellucian.com/SignUp> , enter your W&M email address in the required fields, complete the security step and click “Submit.”

3. After your information is verified by the University, you will receive an email from “noreply@okta.com” with an activation link. Please click on that link to complete the registration process.

Ellucian also offers self-paced training exercises on its products through your new Ellucian Hub account via their online resource called the “On-Demand Subscription Library.”

1. If you would like to request access to the free Ellucian On-Demand Subscription Library simply log into your newly created Ellucian Hub account, type “Education Svcs” in the upper right search screen, and then click “Request.”
2. Requests are typically auto approved within 24 hours, once approved you will receive an e-mail indicating that you’ve been granted access.
3. To access your now available free training resources, log into the Ellucian “On Demand Subscription Library” <https://training.ellucian.com/courses> with your recently approved Ellucian Hub account and self-register for any training opportunities that are listed as “Free.”

If you see **0 items found:**

Courses are typically found within the lowest-level categories. Please ensure that you are **logged in** and browse through all sub-categories. The catalog will only display courses that you have permission to view.

Consider using the **Learning Paths** menu, which may provide an easier way to find courses that you are interested in.

Colleague Navigation, Features, and Functionality (Colleague Navigation 4) - Course

This course is designed for all beginner Colleague users. It is also suitable for new hires, executives, anyone who is upgrading from a previous version, or for those who need a refresher in the basics of Colleague. After successful completion, learners can describe the key features, functionality and components of Colleague User Interface, and will be able to navigate in the Colleague System.
