Video Feedback in Blackboard Assignments

Instructors have the capability to provide video and audio feedback to students through the inline grading in the assignment feature or via the grade center and the quick comment area.

Features include:

- Up to 5 minutes length recordings.
- Recordings can be video or audio-only.
- Recordings can be created directly in the web browser (Chrome and Firefox for now) without plug-ins or additional software.
- Recordings stored in the cloud and do not count against local storage allocations.
- Links for recording are secure and must be launched from correct location with correct session in order to be opened.

How to Provide Video Feedback in Blackboard Assignments

1. Go to your Blackboard Course.
2. Locate the Assignment Column in the Grade Center.
3. Select to Grade Attempts.
4. Select the student attempt to grade and locate Feedback to Learner under the Assignment Details.
5. Click on the text icon.
6. Locate the microphone icon to insert a recording.
7. After verifying your audio and video locations you will be able to start your recording.
8. Click on the **Red Record button** to begin. If using your camera make sure to enable the camera by clicking on the camera icon.
9. If you need to check your microphone and camera before starting, please click on the gear icon to check your settings.
10. When you have completed the recording click on **Save and Exit**.

11. Click on **Insert Recording** and change the name if needed in the text box.

12. You will see your recording in the Feedback to Learner box.
13. Click **Submit** and then after placing the grade in the attempt box click on the **Submit** button to complete the grade and video entry.
Adding a Video Comment to the Grade Center using Quick Comment

In addition to adding video comments within the assignment grading area, you can also utilize the Quick Comment feature in the Grade Center.

1. Go to your Blackboard Course.
2. Locate the Grade Center and any column that has been graded.
3. Select the action arrow within the student graded column and choose Quick Comment.
4. Select the Text Editor Button and locate the microphone icon in the Feedback to Learner box.
5. After recording the video and Inserting the Video you can click on Submit.

How do Students View your Feedback

1. Login to Blackboard and Choose the My Grades area for your course.
2. Click on the Feedback icon to open up the recording.
3. Click on the recording to hear your instructor’s feedback.
