

Call Park

- The **Call Park** feature is a way to move a call from your phone and put it on hold on another phone.
- Press the **Park** soft key.
- This will put the caller on hold.

- Enter the destination phone number where you'd like to park the call, then hang up.
- The call is now on hold on the destination phone.
- If the call is not picked up within 2 minutes, the call will revert back to your phone.
