Update: America To Go

Beginning August 6, 2018, the America To Go program will be required for food orders for the William & Mary campus, paid with university funds (state or local). VIMS will launch the program at a later date. America To Go is a web-based, managed catering platform for local food ordering.

For help using America To Go, resources such as contact information, vendor network, and FAQ may be found on the Procurement Services Catering page. In addition, we will be adding America To Go information to Cornerstone. A launch event is forthcoming. For more information, contact Dave Zoll at djzoll@wm.edu.

TSRC: Gear Up for the New Semester

The Supply Room Company (TSRC) is the official, mandatory office supply provider for William & Mary. TSRC is a SWaM-certified woman-owned small business that has provided consistent goods and services to W&M.

In addition to office supplies, departments may place furniture orders less than $5,000 through the TSRC quick ship program. Visit www.thesupplyroom.com.

Local Funds Update

In support of changes to the campus local funds policy, the Procure-to-Pay Matrix has been updated to reflect those changes. Visit https://procuretopay.wm.edu/.

Contract Portal Tip: How to Find a W&M Contract Using Contractor Name Search

One option in the Contract Portal is Contractor Name Search. This search feature allows for a search by all or part of a contractor name. For example, entering the word “signs” would retrieve all contractors with the word “signs” in their company name. Users can also use the drop down list to find a specific contractor. For help using the Contract Portal, email procur@wm.edu.

**SPCC - Question of the Month**

**Question:** When I log into Works, I have a Flagged transaction showing on my home page under Action Items. How do I see why the transaction was flagged?

**Answer:** In order to view Flagged transactions, click on Flagged from your home page, and this will bring you to all of your Flagged transactions. Hover over the document (TXN) number and select View Full Details using the black drop down arrow. Click on the Transaction tab, and you will be able to view under Comments why the transaction was Flagged and who flagged it. Address the Flag accordingly, and then remove the Flag using the Actions drop down menu. You will be prompted to enter a Comment before removing the Flag—this is required and should be a brief explanation of how you fixed the Flag. Then click OK. Follow the steps in the [How to Address Flags in Works](#) tutorial for more information.

---

**eVA - Tip of the Month**

“Confirming Order: Do Not Duplicate” should only be selected if the eVA order is truly confirming an order such as a point of sale purchase.
