In collaboration with the College’s Committee on Sustainability, the Office of Procurement recommends a change in the type of general purpose copier/printer paper routinely used, changing from a 0% to a 75% recycled content paper, of which 35% is post consumer recycled content. This switch will allow us to reduce our CO2 emissions (i.e., carbon footprint) by about 90 tons per year. This greenhouse gas savings is equivalent to taking 20-30 cars off the road for evermore.

The Supply Room, under the state contract for office supplies, has priced Navigator Premium Recycled Super White (SVA WMMNR1120) at $35.49 per case. When ordering supplies from The Supply Room, including this recycled content paper, please use the College’s own Supply Room ordering page at http://www.thesupplyroom.com/wm.asp. More detailed announcement and specification information may be found below.
