ACCREDITATION: The College of William and Mary in Virginia is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award baccalaureate, master's, educational specialist, and doctoral degrees. William & Mary also may offer credentials such as certificates and diplomas at approved degree levels.

Individual schools are accredited by the Association to Advance Collegiate Schools of Business, the Council for the Accreditation of Educator Preparation, and the American Bar Association. Programs within the School of Education are accredited by the National Association of School Psychologists and the Council for Accreditation of Counseling and Related Educational Programs.

ACADEMIC CALENDAR: The academic calendar consists of two semesters lasting approximately 15 weeks and a condensed summer semester. Semesters may include several shorter sessions.

ACADEMIC CONTINUANCE: The Committee on Academic Status for undergraduates and faculty committees in each graduate school establish and administer continuance requirements. A student is assumed to be in good academic standing unless otherwise indicated. Refer to the catalog (<http://catalog.wm.edu>) for further details on continuance policies.

INCOMPLETE: An incomplete becomes an "F" if the work is not completed by the last day of classes of the following regular semester, or if the postponed work has not been completed satisfactorily by the date specified by the instructor. A degree will not be conferred if an incomplete grade is on a student's record.

TRANSFER: Credits earned through transfer work are reflected by a grade of "T" and are not calculated into the W&M GPA.

WITHDRAWAL: All attempted coursework appears on the transcript. Generally, students may withdraw from a course through the 60 percent point of classes. Refer to the catalog for specific withdrawal policies.

REPEATED COURSES: Adopted Fall 2025: Certain courses are specifically designated in the university catalog as courses that may be repeated for credit. With the exception of these specially designated courses, no course in which a student receives a grade of "A", "B", "C", "G", "I" or "P" may be repeated except as an audit. Any course in which a student receives a grade of "D", "F", "R" or "W" may be repeated for a grade; if a course with a grade of "D" or "F" is repeated, both the initial grade and subsequent grade(s) appear on the transcript. Credit is awarded once and only the most recent grade is computed into the grade point average. Courses repeated via transfer credit will not result in a change in GPA.

COURSE NUMBERS: Course numbers below 300 are generally considered "lower-level" undergraduate courses and those numbered between 300 and 499 are generally considered "upper-level" undergraduate courses. Courses numbered 500 and above are considered graduate courses, as are all courses with

a CRIN, EPPL or LAW prefix. Non-credit course subjects and numbers begin with 9.

ACADEMIC CREDIT HOUR: A credit hour is generally equivalent to one hour of direct faculty instruction, plus out of class student work, each week for approximately 15 weeks. W&M employs federal and state definitions of academic credit: when contact hours differ from credit hours, the courses use demonstration of competency, demonstration of proficiency, or fulfillment of learning outcomes to establish credit.

GRADING SYSTEM and GRADE POINT AVERAGE (GPA): W&M uses a four-point grading system. A student's GPA is calculated by dividing the sum of earned quality points by the sum of attempted hours for all courses receiving a grade used in calculating the GPA. Only coursework taken at W&M is used in the GPA calculation.

W&M used a three-point grading system prior to Fall 1976. The graduate schools of business and education used the three-point system through Summer 1977. The law school adopted a 12-point scale from Fall 1989 to Spring 2003 in which GPAs were calculated by dividing total quality points by total hours, divided by three. The current law grading system was adopted Summer 2003.

CURRENT GRADING POINT SYSTEM:

TO TEST FOR AUTHENTICITY:

This transcript is printed on one of the most technically advanced security papers. When scanned or photocopied the words "Void" and "VoidSecure" will appear on the copy. The paper contains invisible fluorescent security fibers and is chemically sensitive to a variety of document altering chemicals providing a visible stain or starburst reaction on the paper when document altering chemicals are applied. TonerSecure bonds paper and toner and attempts to remove printed images will damage the paper surface, revealing the alteration. It also contains an artificial watermark on the back which can be seen by holding the sheet at an angle where you can see a stamp mark image of VoidSecure®. This artificial watermark can also be validated by rubbing the edge of a coin along the back of the sheet for the image to appear.
