

W&M Summer Program in Cádiz, Spain Summer 2027

Host Institution/Organization: MundoLengua

Estimated dates (subject to change): May 29 to July 4, 2027

GEO will work with the host institution/onsite partners to confirm dates in fall 2026, resulting in possible changes from estimated dates.

Size of Program: in recent years, 14 - 21

In light of COLL300, programs are designed to be accessible to as many eligible students as possible. *Group size is determined based on an overseas partner's ability to accommodate and support groups. This program's estimated capacity is 25 students.*

Overview of Program One W&M faculty member serves as program director (PD); the PD teaches a 1-credit preparatory course in spring and oversees individual, independent research projects of participants on the program.

Courses and credits: Students receive 6 credits (including the 1-credit pre-course), chosen from courses in Spanish language, culture, history, and film; in addition, each student completes a 3-credit independent research project while in Spain. Students receive W&M grades and credits for these courses; courses may not be taken pass-fail.

Prerequisites: Students must have completed HISP 207 or its equivalent; W&M students must also enroll in HISP 376 (1 credit) in spring 2027.

Housing: Students live with local families.

Excursions/Activities: Course-related excursions to Segovia, Granada and Ronda, Sevilla, and Jerez. For summer 2027, program may begin directly in Cadiz.

COLL300 All W&M programs teaching undergraduate students are expected to meet COLL 300 requirements. Course content will not be the only or the main consideration when evaluating the COLL 300 designation; other aspects of programs such as activities and excursions will also be considered. Academic experiences include the course, assignments, course-related excursions, guest speakers or local faculty, engagement with members of the local community, and co-curricular cultural activities connected to the objectives of COLL 300.

The approved language for COLL 300 is as follows:

"COLL 300 courses explore the diverse perspectives and socio-cultural values of people and communities of countries outside the geographical boundaries of the

United States, and/or within the geographical boundaries of the United States for the study of sovereign Native nations, indigenous communities, and five US territories or sub-national entities.

COLL 300 directly connects students with people, places, and ideas that enhance their comprehension of different ways of thinking and being in the world. Students synthesize their knowledge, their emerging expertise in framing questions for analysis, and their communication skills to engage global issues in a self-reflective, cross-cultural way.

Students will be able to:

- demonstrate an understanding of how people across cultures and societies experience the world
- make connections between those perspectives and course content
- analyze how cultural and societal differences manifest globally
- reflect on their own identity as global citizens COLL 300"

COLL 300 experiences will ideally join students with people, places, and ideas (all three).

COLL 300 courses should have a self-reflective assignment built into them. (Approved by FAS March 2021.)"
