W&M INTERNAL PROGRAMS:

Global Research Institute’s Summer Fellows Program, deadline: 3/19/21; https://wmsas.qualtrics.com/jfe/form/SV_6FrcU3XecZgt662:
Faculty whose research has an international and policy focus can apply for up to two Summer Fellows in 2021. Two main tracks for fellows exist: 1) to support ongoing or new research projects or 2) to support capacity building within host organizations that will help to further the strategic objectives of your research project. However, if you have a more creative use for these resources that you would like to propose, please contact Assistant Director of Programs Rebecca Latourell at rmhalleran@wm.edu to discuss the idea before applying.

CCEE Spring 2021 Request for Proposals, Commonwealth Center for Energy and Environment
The CCEE seeks interdisciplinary proposals for advanced teaching and research addressing one or more major challenges to the long-term sustainability of human social, economic and political systems. Proposals should be defined by the human systems at risk and the possible adaptations required to maintain near and long-term sustainability. Grants provide opportunities to innovate and develop new initiatives in research and teaching that hold the promise for continued extramural research support in the future.
For further information, contact Dennis Taylor at dltayl@wm.edu.

COLL Innovation Grants for Faculty: Open Proposals, deadline: rolling; http://www.wm.edu/as/center-liberal-arts/coll-innovation-grants/index.php:
The Center For Liberal Arts supports faculty in bringing their most creative and innovative teaching to their COLL courses. Oftentimes faculty need financial support to fully realize the aspirational goals of the COLL curriculum. The CLA has funding available to support faculty as they design and implement courses that bring the best of the liberal arts to our students. We prioritize requests that have concrete connections to current COLL courses, particularly the COLL 350 and Campus COLL 300.
