IN THE SPOTLIGHT:

Private Grant Opportunities for Faculty
Please click on the following link to view private grant and fellowship opportunities available to faculty: https://wm1693.app.boy ... 3b4ge43stueaufh1sq0x7
If you wish to pursue any of the opportunities, please contact Corporate and Foundation Relations (CFR), Shelby Finkelstein, Associate Director, (757) 221-1604 or sefinkelstein@wm.edu.

NEH Summer Stipend program aims to stimulate new research in the humanities and publications by supporting individual scholars' work doing research or writing. The grant amount is $6000 for a period of two months. Program details are available: https://www.neh.gov/grants/research/summer-stipends. This program is subject to a W&M internal grant competition. Internal proposal: Due to wosp@wm.edu by 4:00 pm on 9/07/21. NEH Summer Stipend Webinar: 4/14/21, from 2-3 pm - describe application and nomination process and offer application writing tips. Details on OSP website/Announcements https://www.wm.edu/offices/sponsoredprograms/#announcements.

W&M INTERNAL PROGRAMS:

Global Research Institute’s Summer Fellows Program, deadline: 3/19/21; https://wmsas.qualtrics.com/jfe/form/SV_6FrcU3XecZgt662:
Faculty whose research has an international and policy focus can apply for up to two Summer Fellows in 2021. Two main tracks for fellows exist: 1) to support ongoing or new research projects or 2) to support capacity building within host organizations that will help to further the strategic objectives of your research project. However, if you have a more creative use for these resources that you would like to propose, please contact Assistant Director of Programs Rebecca Latourell at rmhalleran@wm.edu to discuss the idea before applying.

CCEE Spring 2021 Request for Proposals, Commonwealth Center for Energy and Environment
The CCEE seeks interdisciplinary proposals for advanced teaching and research addressing one or more major challenges to the long-term sustainability of human social, economic and political systems. Proposals should be defined by the human systems at risk and the possible adaptations required to maintain near and long-term sustainability. Grants provide opportunities to innovate and develop new initiatives in research and teaching that hold the promise for continued extramural research support in the future.
For further information, contact Dennis Taylor at dltayl@wm.edu.

COLL Innovation Grants for Faculty: Open Proposals, deadline: rolling; http://www.wm.edu/as/center-liberal-arts/coll-innovation-grants/index.php:
The Center For Liberal Arts supports faculty in bringing their most creative and innovative teaching to their COLL courses. Oftentimes faculty need financial support to fully realize the aspirational goals of the COLL curriculum. The CLA has funding available to support faculty as they design and implement courses that bring the best of the liberal arts to our students. We prioritize requests that have concrete connections to current COLL courses, particularly the COLL 350 and Campus COLL 300.
**HUMANITIES:**

**SOCIAL SCIENCES:**

*social opportunities and challenges of the digital transformation  

*One institutional application may be submitted. If you are interested in applying, please contact wosp@wm.edu – an internal competition may be required.*

*An organization may submit one application. If you are interested in applying, please contact wosp@wm.edu – an internal competition may be required.*
*The USAID/West Africa SERVIR 2 activity serves to increase the ability of local, national, and regional institutions to apply geospatial technologies and analysis to improve decision making and management of resources to improve the resilience of countries in the region, mitigate the impacts of climate change, and ensure appropriate land use to reduce greenhouse gas emissions.
