**W&M INTERNAL PROGRAMS:**

Interdisciplinary Research Innovation Fund: Focus on the Arts & Humanities: Call for Proposals, deadline: 02/17/2023; provost@wm.edu

**Background:** In order to maintain excellence in research and to support innovation in emerging areas of scientific and societal interest, the Provost is allocating $500,000 in one-time funding for new internal interdisciplinary research grants. This program may be continued and adjusted in future years, pending evaluation of this pilot. Considering that areas such as the humanities or the arts currently have limited external funding opportunities, the goal is to foster collaborations between principal investigators (PIs) from these fields with researchers in fields with more funding opportunities, like the social sciences and/or STEM. These interdisciplinary collaborations will ideally establish new pathways for funded research that are currently beyond reach, leading in the near future to strong research proposals for external funding.

**Considerations:** All William & Mary full-time faculty whose contracted responsibilities include research are eligible to apply for these grants. This funding is expected to support new exploratory endeavors that lead to innovative, multiple-PI research proposals rather than typical ongoing scholarly activities. Preference will be given to proposals led by or prominently featuring PIs from the humanities and/or the arts that establish interdisciplinary collaborations across schools and/or disciplines.

**Funding:** The proposed funding may be used to support personnel, supplies, travel to field sites, and possibly other relevant necessary expenses. The maximum summer stipend for faculty members involved in the proposal is $3,000 each. Undergraduate or graduate student funding is allowed. The funding for each award will need to be spent within two years of the grant date.

**Types of Grants:**

- Research initiation grants will be allocated up to $75,000 total per project for a period of two years and are allocated to support larger-scope projects. The expectation is that these grants result in grant submissions with budgets of over $1 million.

- Pilot grants will be for a one-year term with budgets of up to $20,000 to support smaller-scope projects but, are also expected to lead to grant proposal submissions in the near future.

We expect to award a minimum of 4 research initiation grants and 10 pilot grants with this current round of funding.

**Proposals:** Proposals should consist of no more than 5 pages total and must include an executive project summary (no more than 2 pages), proposed budget, and plan for external proposal submission. As the review committee will represent broad research backgrounds, each proposal should be in language that is understandable to reviewers outside of the expertise of the PIs. In addition to describing the proposed scholarly work, the proposal should address how the previously mentioned considerations are met by the project, provide a timeline for the project, and address the feasibility of completing the project during the proposed timeline.

As mentioned above, proposals should also include a detailed description and timeline of actions to pursue external funding to continue this line of original work. The proposal budget (included in the 5-
Review process and timeline: Proposals will be due on February 17, 2023, and should be submitted to provost@wm.edu. Proposals will be reviewed by a committee that includes representation from all of the schools. This review committee will make recommendations to the Provost, who will make the final funding decisions.

• For research initiation grants, funding will be allocated in annual increments. At the end of the first year, each funded project will be reviewed by the review committee to ensure that adequate progress has been made, with the second increment of funding dependent on adequate progress. At the end of the 2-year funding period, each research team will be expected to submit a final report not to exceed 5 pages in length, describing what was achieved during the funding period, potential publications that resulted from this effort, and the status of the expected grant submission related to the project.

• For pilot grants, final reports are expected to outline next steps in maintaining the established internal interdisciplinary partnership and detail plans to pursue external funding. For questions, please contact Josh Burk, Professor of Psychological Sciences and Provost’s Faculty Fellow, at jabur2@wm.edu

COLL Innovation Grants for Faculty: Open Proposals, deadline: rolling; http://www.wm.edu/as/center-liberal-arts/coll-innovation-grants/index.php:
The Center For Liberal Arts supports faculty in bringing their most creative and innovative teaching to their COLL courses. The CLA has funding available to support faculty as they design and implement courses that bring the best of the liberal arts to our students. We prioritize requests that have concrete connections to current COLL courses, particularly the COLL 350 and Campus COLL 300

**NSF RESEARCH CENTER:**
For new/incoming faculty and those who would like a refresher before the start of the 2022-23 academic year, National Science Foundation has compiled a comprehensive list of 2022 resources for you to access at your convenience: https://nsfpolicyoutreach.com/resource-center/?utm_medium=email&utm_source=govdelivery

**IN THE SPOTLIGHT:**
Ralph E. Powe Junior Faculty Enhancement Awards Program, ORAU; deadline 1/09/23; https://orau.org/university-partnerships/member-grant-programs/powe/index.html
* Limited submission: 2 applicants from W&M
The Ralph E. Powe Junior Faculty Enhancement Awards Program provides seed money for research by junior faculty at ORAU member institutions. These awards are intended to enrich young faculty’s research and professional growth and result in new funding opportunities. **The internal application**
Deadline for the FY 2023 awards is Monday, January 4, 2023, at noon EST. Each ORAU member institution may nominate up to two applicants. The FRC will review applications WM internal applications. The subsequent agency deadline is Monday, January 9, 2023, at 12:00 PM.

Please note that proposed research projects for the 2023 awards are being accepted in the following five discipline areas:

Research projects must fall within one of these five disciplines:

1. Engineering and Applied Science
2. Life Sciences
3. Mathematics/Computer Sciences
4. Physical Sciences
5. Policy, Management, or Education

NEH’s Special Initiative, American Tapestry: Weaving Together Past, Present, and Future:

The American Tapestry initiative encompasses a number of newly launched NEH grant programs that explore the three themes of “Strengthening Our Democracy,” “Advancing Equity for All,” and “Addressing Our Changing Climate:”

4. Public Impact Projects at Smaller Organizations: A forthcoming grant program to help small and mid-size museums and cultural organizations increase the impact, reach, and excellence of their public programs. (Funding opportunity to launch in 2023.)

Defense Science Study Group (DSSG), IDA – DARPA, deadline 12/31/2022; [https://dssg.ida.org/](https://dssg.ida.org/)

*Limited submission

The two-year program requires that the member of the class devote 20 days per year to DSSG activities. To minimize the disruption of the academic year, the majority of the time for DSSG activity is scheduled during the summer months. The selection criteria are, briefly, as follows:

- A faculty member in science, engineering, or related discipline
- Outstanding academic accomplishments and a likely future leader in their field
- Preferably within 15 years of their Ph.D.
- Must be a U.S. citizen (to acquire security clearance).

Research Opportunities in Space and Earth Sciences 2022 (ROSES-2022), National Aeronautics and Space Administration; deadline varies per program; https://nspires.nasaprs.com/external/solicitations/summaryInit.do?solld={341BDCCE-1F95-D00C-38B3-D9CB183FFEEB}&path=open

ART/HUMANITIES:

Fellowships, The American Center of Research; deadline 2/01/2023; https://acorjordan.org/fellowships-2/

Visiting Humanities Fellows, University of Connecticut; deadline 2/01/2023; https://humanities.uconn.edu/fellowships/become-a-fellow/

General Fellowship Program - Near and Middle East Research and Training Act (NMERTA) Fellowships, American Institute for Yemeni Studies; deadline 2/08/2023; https://www.aiys.org/fellowships

Research Fellowships at the Library & Museum of the American Philosophical Society, American Philosophical Society; deadline 1/20/2023; https://www.amphilsoc.org/grants/fellowships

Media Projects, National Endowment for the Humanities; deadline 1/11/2023; https://www.neh.gov/program/media-projects

**AmeriCorps Seniors Workforce Development, AmeriCorps; deadline 2/01/2023;**

**Inclusive Digital Technology Design Toolkit, USAID Funding via DAI; deadline 11/21/2022;**

*** RFS is interested in developing a toolkit to guide Missions and implementing partners (IPs) on how to be truly inclusive by design in their use of digital technology in agriculture, nutrition, water security, sanitation, and hygiene (WSSH), and resilience programming. This toolkit should draw on existing internal and external resources related to user-centered design, gender2, inclusive development, and localization. It aims to serve as an actionable and user-friendly tool to help practitioners identify what groups are more likely to be excluded by digital technology in the context of RFS’s work, what factors/barriers inhibit their inclusion, and what steps can be taken throughout the program cycle activity design to significantly mitigate their exclusion through proactive inclusion.
