

JULY 28: TIME TO ENJOY LIFE

The July Family Luau at JLab is a great tradition, highly appreciated by all the participants. As usual, our Lab's staff volunteered to help with the event. The decoration process started "from scratch".

Natalie Pearcy (left) and Dee Dee Hopkins (right) worked hard installing the entrance gate and decorating it.

Dina Abdel-Fattah (left picture, left) helped them and Amy Wilkerson (left picture, right) designed the whole project.

The result was quite impressive!

The food was great and served on time, so when the event started there were a lot of things to enjoy...

LA VIE EST BELLE...

Crowds of people filled up the place: adults (above) preferred food and beverage, kids below – games and attractions.

FAMILIAR FACES...

JUST BEAUTIFUL!
