LAB TOUR
On May 9th, Amy and Bernadette gave a lab tour to Terri McCann, the Hampton Business Development Manager, and Leonard Sledge, the WM Assistant Director of Economic and Corporate Development.

Marija Rascovic, an ODU graduate researcher, is shown here as she explained her work using the atomic force microscope.

Natalie Pearcy is shown here demonstrating the Hirox microscope to the group.

LAB VISITORS
On May 8th, Olga gave Erzhen Barnakov, the wife of Yuri Barnakov (a research assistant at NSU), and their son a tour around the ARC labs.

ODU Director Hani Elsayed-Ali brought Matthew Woodzell and Khin Thitsa, both from ODU’s Electrical & Computer Engineering department for a lab tour on May 3rd.

AFM Upgrade...
Natalie has been updating the scanning probe microscope this month. She installed the new computer, hardware, and software we purchased.
