

Applied Research Center Student Newsletter

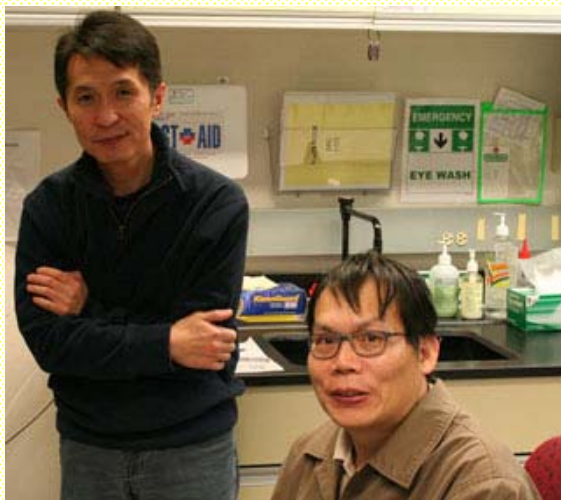

Lab Visitors

Dr. Fattah from CNU visited with his guests to show them the lab equipment his students have been using to perform their experiments.

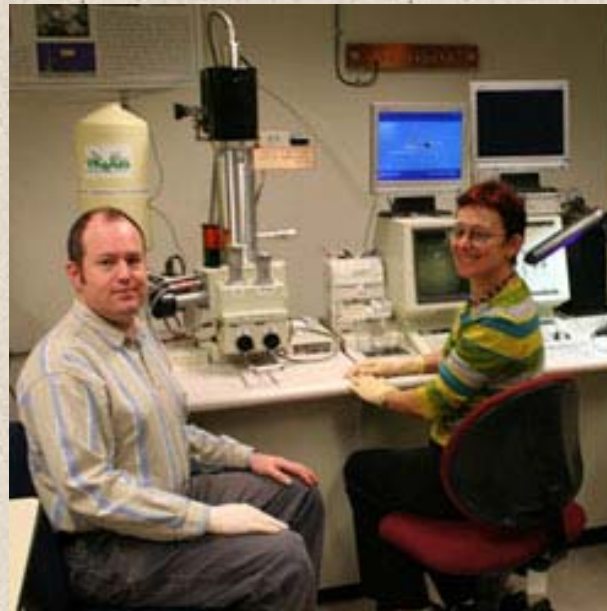

AFM/HiROX

Dr. Yuri Barnakov, with his graduate student Mr. Li from Norfolk State University came to use the Atomic Force Microscope and the HiROX optical microscope to view their samples.

SEM

Eric Norgren from the Mariners Museum brought samples from the USS Monitor project to image using the Hitachi S570 SEM.

New Team Member

Brandt Robinson is now the newest member of the William and Mary Arc Team. He comes in with previous experience in the operations of equipment such as the SEM, AFM, and the Hirox. Welcome to William and Mary Brandt.
